(TC) Projects**

Conferences,  
symposia &  
seminars

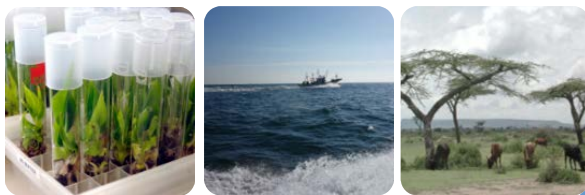

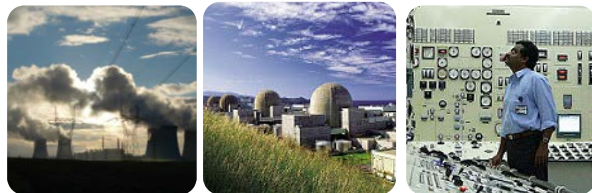

# Contributing to Sustainable Development

## Water & Environment

## Energy

## Health & Nutrition

## Food & Agriculture

## Radiation Technology

## Safety

## Knowledge Management

# Where do we work? (2015)

Expert and lecturer  
assignments **3477**

Fellowships and  
scientific visits **1852**

Participants in regional  
and interregional  
training courses **2722**

EUROPE

ASIA AND  
THE PACIFIC

LATIN  
AMERICA

AFRICA

Regional and interregional  
training courses **175**

Countries/territories  
receiving support **138**

# National TC Projects

- Need/country driven
- Address problems/needs at the national level
- Build on or establish infrastructure
- May involve more than one counterpart / institution

# Regional TC Projects

- Build on existing national infrastructure
- Address problems/needs at the regional level
- Promote Technical Cooperation among Developing Countries (TCDC)
- Mainly targeting human resource development
- Create links between regional institutions
- Aim to share information / expertise and experience

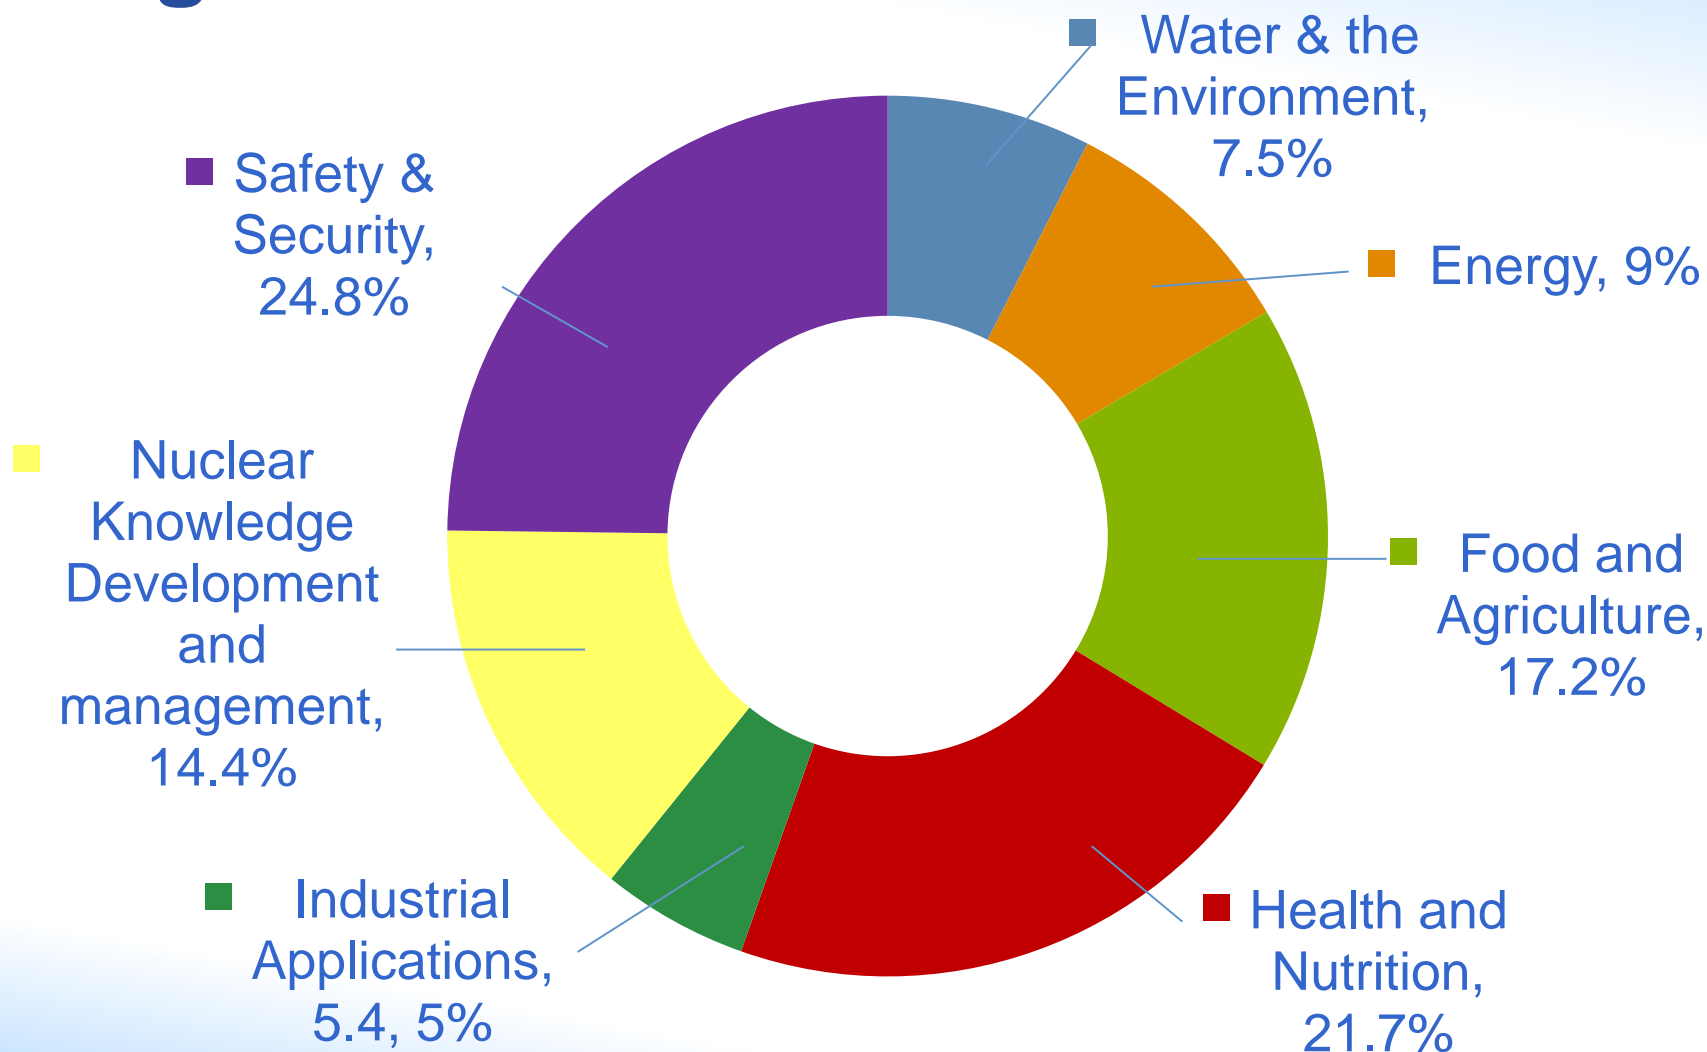

# Interregional TC Projects

- Address problems / needs of several states in different regions
- Address transboundary issues
- Transregional, global, capacity building
- Deliver support across national and regional boundaries
- Usually an Agency initiative
- Small number of projects
- Mainly targeting human resource development

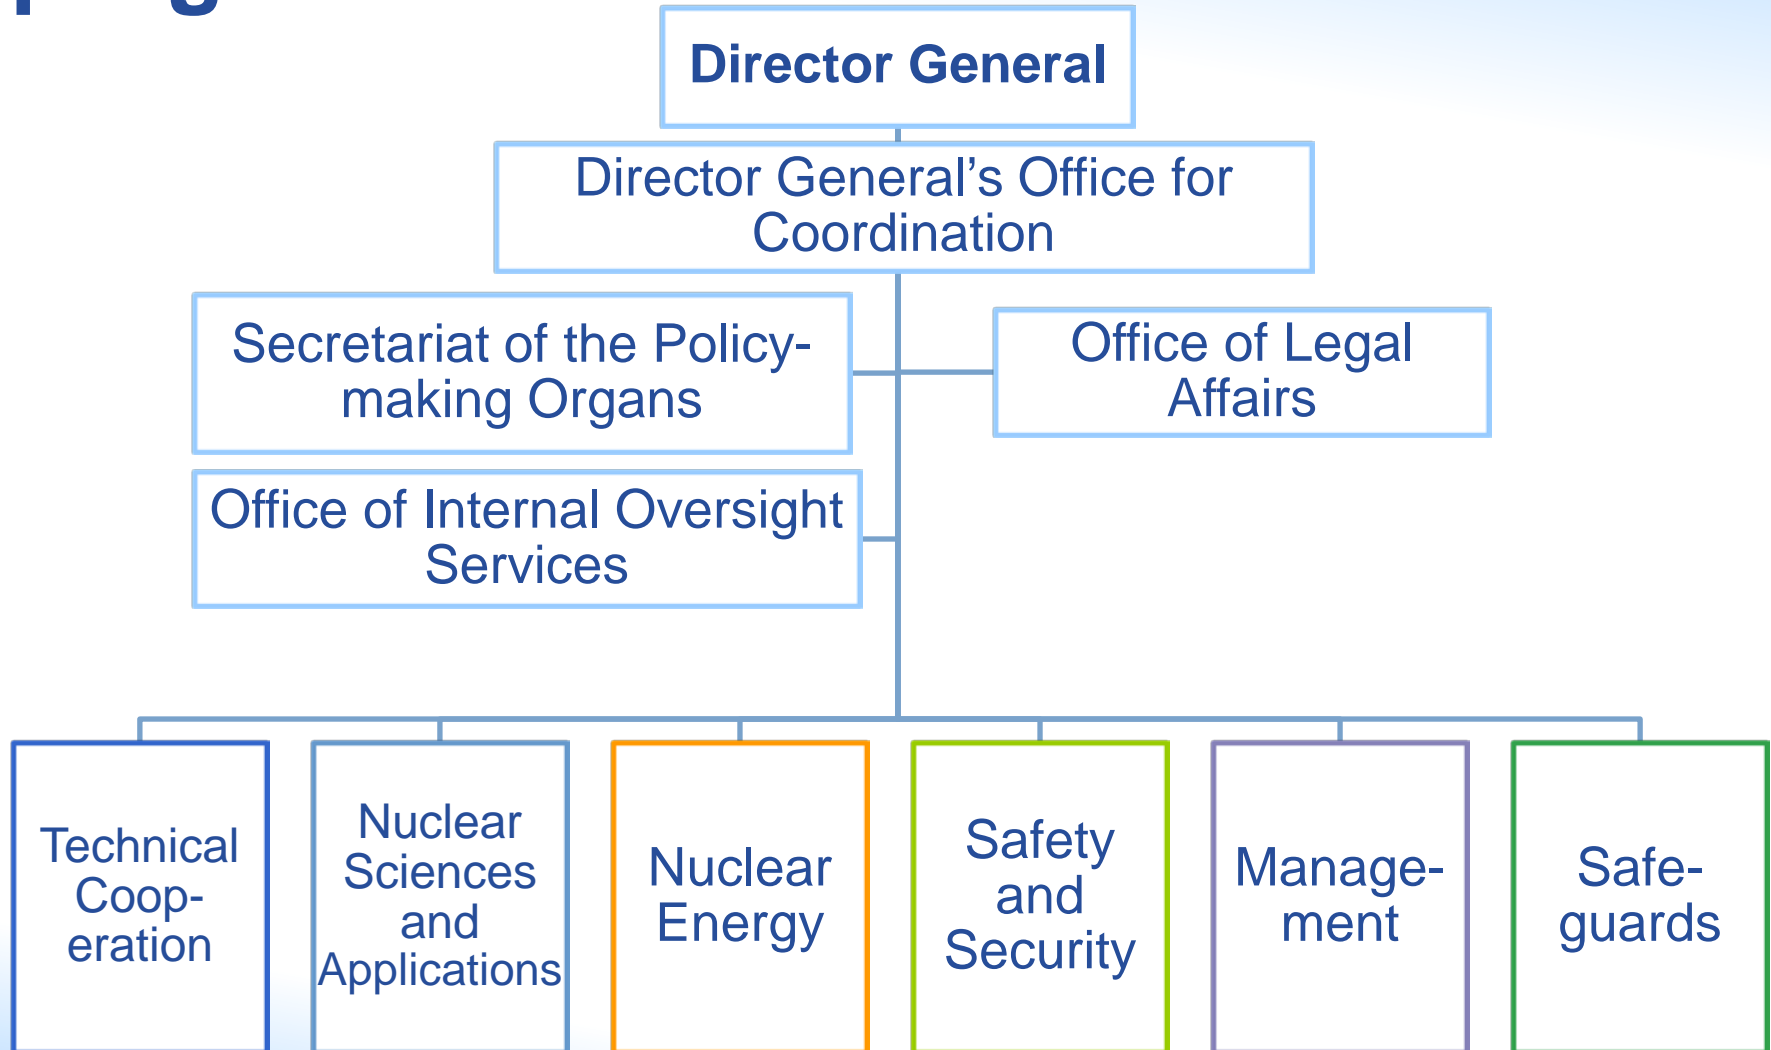

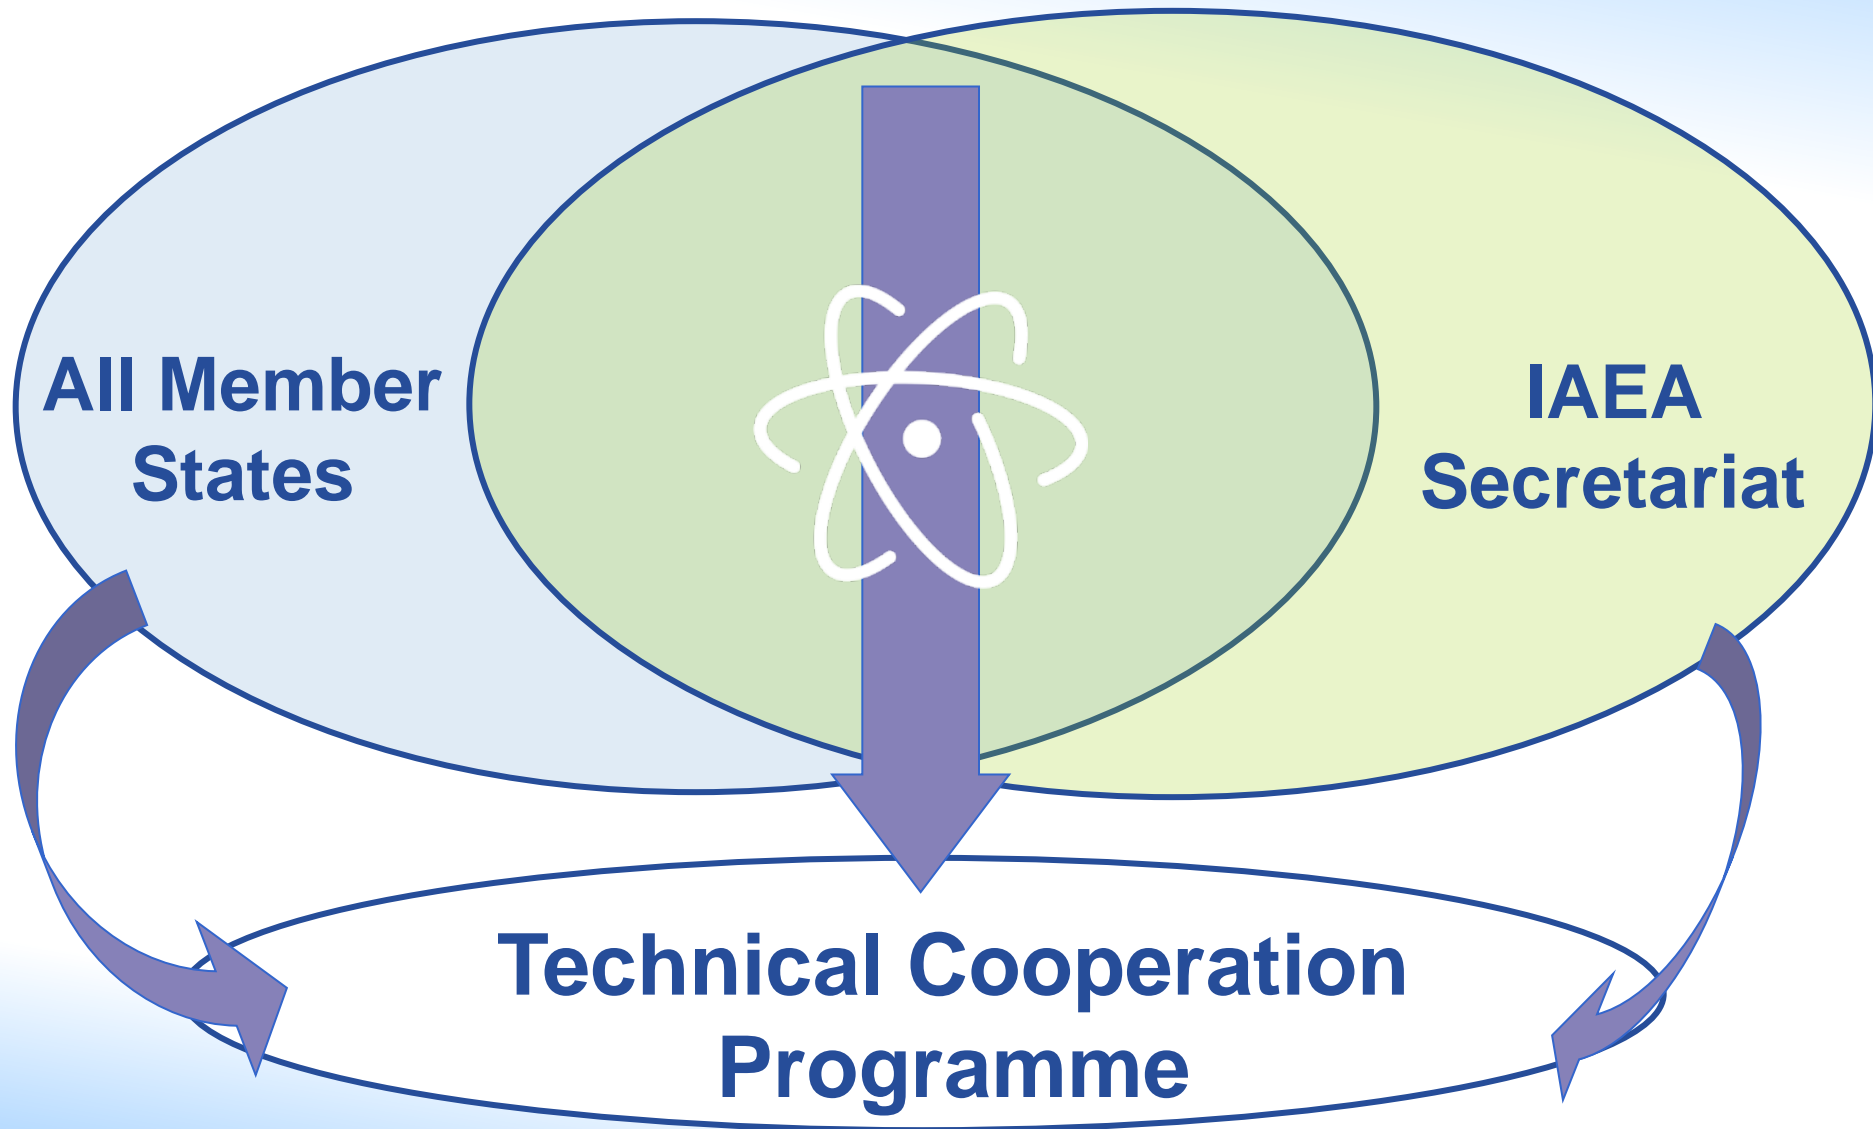

# TCP 2015 Actuals by Programme Area

# Management of the TC programme

# A shared responsibility

## Technical Cooperation Programme

*Technical cooperation:  
delivering results for  
peace and  
development*
