

Mohamed Ali Abdul Khader

Head and Consultant in Nuclear Medicine, Department of PET-CT Imaging, Mount Miriam Cancer Hospital, Penang, Malaysia

Dr Ali Abdul Khader graduated from University of Malaya (MBBS) in 1983 and obtained his postgraduate qualification in Radiology in 1990. He holds fellowships from the IAEA in Clinical Nuclear Medicine and PET-CT. During his tenure in the Malaysian Government, he was heavily involved in helping the Ministry of Health to expand and developed the national nuclear medicine services. He spearheaded the Masters in Nuclear Medicine postgraduate training programme in 2008, which has successfully produced 35 nuclear medicine specialists. For his vast contribution he has been recognized nationally and was conferred the

Order of Chivalry Award by the Penang State Government and given a special recognition award by the Malaysian Society of Nuclear Medicine and Molecular Imaging.

Internationally his expertise has been utilized as a member of the expert consultant panel for an IAEA project for setting up PET centres, in best practices in nuclear medicine and as an expert in the Quality Management Audit in Nuclear Medicine providing services in Pakistan, Sri Lanka, Mauritius, Indonesia, United Arab Emirates and Algeria. Currently he provides expertise as a PET-CT Consultant in two private hospitals in Malaysia and to the Nuclear Medicine and PET CT Department of the Medical Center of the President of Republic of Kazakhstan.
