

# Philippe Ciais

## Senior Researcher, Institut Pierre Simon Laplace (LSCE), France

Mr Philippe Ciais is a researcher based at Laboratoire des Sciences du Climat et de l'Environnement near Paris in France. He works on the global carbon cycle and authored more than 800 peer reviewed publications, including many in high profile journals like Nature or Science.

Philippe Ciais acted as convening lead author of the carbon cycle chapter in the last IPCC climate assessment report. His recent works focused on the dynamics of CO<sub>2</sub> emissions during the COVID-19 pandemics.
