

67th IAEA General Conference

The Next Generation of Nuclear Professionals: How the IAEA Supports Development

ESPACE event during the 67th IAEA General Conference
26th September 2023, 10:00–11:00, Room M01, M Building, 1st floor

This event will introduce IAEA Nuclear Energy Management (NEM) Schools and will share information on some recent developments. It will be of interest both to Member States interested in hosting an NEM School, as well as to potential participants in future NEM Schools. With the growing interest in nuclear power, one of the most important elements is sustaining a strong cohort of well-educated and strongly motivated young professionals. Through the robust and high-quality programme of Nuclear Energy Management (NEM) Schools, the IAEA supports Member States in achieving this goal. Launched in 2010, the IAEA's NEM Schools programme has now completed almost 50 Schools, with over 1,500 participants, from over 100 Member States.

Scientific Secretaries - Mr. Ian GORDON, Division of Planning, Information, and Knowledge Management, IAEA Department of Nuclear Energy; and Ms. Alesia IUNIKOVA (moderator), Division of Planning, Information, and Knowledge Management, IAEA Department of Nuclear Energy.

Event Programme

Opening remarks

Wei Huang

Director, Division of Planning, Information and Knowledge Management

Moderator

Alesia Iunikova

Knowledge Management Specialist, Division of Planning, Information and Knowledge Management

Speakers

Lerato Makgae

National Liaison Officer, Department of Mineral Resources and Energy (DMRE)
South Africa

Gabriel Pavel

Executive Director, European Nuclear Education Network (ENEN) Belgium

Akio Toba

Executive Director of Japan Atomic Industrial Forum, International Cooperation Center (JAIF ICC) Japan

Fabio Staude

Director of Nuclear Engineering Institute (IEN/CNEN) Brazil

Panel discussion

Closing remarks
