

#ICARST2025 Side Event 9:

Tools for Radiation Technology Users

This side event will provide insights into the latest tools supporting research and practical applications in radiation technologies. Speakers will discuss Monte Carlo simulations of radiation transport, modelling of radiation interactions with polymers, graphical user interfaces for improving software accessibility, and hardware developments for massive parallel computations.

Ms Tzanka Kokalova-Wheldon
Director, Division of Physical and
Chemical Sciences, IAEA

Ms Katie Larsen
Office of Radiological
Security (ORS), USA

Mr Warren Michael Stern
Brookhaven National
Laboratory, USA
(Chairperson)

**Mr Randolph
Schwarz**
Pacific Northwest
National Laboratory
(PNNL), USA

**Mr Krzysztof
Halagan**
Lodz University of
Technology, Poland

**Mr Mats
Jonsson**
KTH Royal Institute
of Technology,
Sweden

**Mr Abbas
Nasreddine**
Aerial CRT, France

Thursday, 10 April 2025

18:00 – 19:30

M Building, First Floor, Room M2
