

Mr Charles Oppenheimer

Oppenheimer Project,
United States of America

Biography

Mr Oppenheimer is the founder of Oppenheimer Project and Oppenheimer Energy Ventures - entities dedicated to tackling existential risks, with a primary focus on fission technology and its importance in the dual threats of nuclear proliferation and climate change.

A frequent speaker on nuclear policy and science diplomacy. He has appeared in interviews by major media networks such as CNN, TIME and recent documentaries on the subject of his grandfather, the late Dr J Robert Oppenheimer, his legacy and commitment to international cooperation.

Charles has also been published in journals including The Bulletin of Atomic Scientists, TIME, USA Today. Prior to founding the Oppenheimer entities, Charles spent 20+ years in Silicon Valley as a technical architect and angel investor. He is also an early investor in social enterprises in Sub-Saharan Africa. Charles holds a BA in International Relations from University of Oregon.
