

**Mr Andrei Rozhdestvin**

Rosatom Energy Projects JSC, Russian  
Federation

## Biography

Mr Rozhdestvin is the Director General of Rosatom Energy Projects JSC. In this role, he oversees the global promotion and implementation of Rosatom's nuclear power solutions, including projects ranging from small modular reactors to Generation IV technologies.

Prior to his current position, Mr Rozhdestvin held several key roles within Rosatom, including CEO of Rosatom Western Europe and Vice President of the Rosatom International Network, where he managed Rosatom's operations and partnerships across Western Europe. He also served as Vice President of TVEL, a Rosatom subsidiary, focusing on business development and new projects.

Mr Rozhdestvin is a graduate of Bauman Moscow State Technical University. His extensive experience in the nuclear energy sector and international business development has been instrumental in expanding Rosatom's global footprint through strategic collaborations and infrastructure development.
