ATOMS  
FOR  
WATER

**Ms Jodie Miller**

Section Head  
Isotope Hydrology Section, IAEA

Ms Jodie Miller is the current Section Head for Isotope Hydrology, responsible for implementing the Water Resources Programme at the IAEA. Jodie completed her PhD in Australia on isotope geochemistry before moving to South Africa where she worked in higher education for 20 years graduating more than 100 students and publishing in excess of 50 scientific papers. She has worked on various water resource projects in Southern Africa and focuses on new and innovative applications of isotope tracers in hydrological modelling.
