

Ms Christine Mukwaya

Head of the Groundwater Monitoring and Assessment Section
Ministry of Water and Environment, Uganda

Ms Christine Mukwaya is Head of the Groundwater Monitoring and Assessment Section at Uganda's Ministry of Water and Environment and National Focal Point for water-related IAEA activities. With over 25 years of experience, she has advanced the use of isotope techniques to improve water monitoring and supported sustainable catchment management and policy development. She has led national and regional projects with IAEA, GIZ, the World Bank and Danida. She holds a Master's in Hydrogeology (Isotope Hydrology) and a Postgraduate Diploma in Project Planning and Management.
