WATER

**Ms Viviana Re**

Associate Professor, Department of Earth Sciences  
University of Pisa, Italy

Ms Viviana Re is an Associate Professor of Earth Sciences at the University of Pisa, Italy, specializing in isotope hydrology, contaminant hydrogeology and groundwater quality assessment. Her work focuses on rural and coastal environments and combines scientific analysis with social science approaches to promote sustainable groundwater management. She actively collaborates with UN agencies and international organizations on capacity building, technical cooperation and groundwater monitoring to support long-term resource protection.
