Mr Ricardo Sanchez-Murillo

Former Coordinator of the Stable Isotopes Research Group
National University of Costa Rica

Mr Ricardo Sanchez-Murillo is a tracer hydrologist specializing in isotope hydrology in tropical and subtropical regions, with a focus on addressing global challenges related to water scarcity and sustainability. He is committed to bridging science and society by engaging with communities, policymakers and the public to ensure that isotope research delivers tangible societal benefits. Prior to his current role in the Department of Earth and Environmental Sciences at the University of Texas at Arlington, he led the Stable Isotopes Research Group at the National University of Costa Rica.
