Mr Shan Zhongde

Chairman

China Atomic Energy Authority

Mr Shan Zhongde is the Chairman of the China Atomic Energy Authority, responsible for guiding China's nuclear energy policy and overseeing international cooperation in the peaceful uses of nuclear science and technology. Under his leadership, the Authority supports the application of nuclear techniques in areas such as energy, health, agriculture and water management, contributing to sustainable development. He also represents China in major international forums on nuclear cooperation, promoting dialogue and partnerships that advance the safe and peaceful use of atomic energy worldwide.
