Fifty-ninth regular session

Provisional agenda

Supplementary Item for Inclusion in the Provisional Agenda

1. On 20 July 2015, the Director General received a request, submitted by the Permanent Mission of the Islamic Republic of Iran to the Agency, for the inclusion of an item entitled “Promotion of Efficiency and Effectiveness of the IAEA Decision Making Process” in the agenda of the 59th (2015) regular session of the General Conference.
2. Pursuant to the Rules of Procedure of the General Conference¹, this item is hereby placed on a supplementary list which will be circulated not later than 25 August 2015. The note verbale from the Permanent Mission of the Islamic Republic of Iran and the accompanying explanatory memorandum relating to the inclusion of this item are attached hereto.
3. It is suggested, for consideration by the General Committee, that in the provisional agenda this item follow the item circulated in document GC(59)/1/Add.1 and that it be discussed first in the Committee of the Whole.

¹ Rules 13 and 20, GC(XXXI)/INF/245/Rev.1

In the name of God

*Permanent Mission of
ISLAMIC REPUBLIC OF IRAN
to the International Atomic Energy Agency(IAEA)*

بِسْمِ اللَّهِ

No. 2015/65

The Permanent Mission of the Islamic Republic of Iran to the International Atomic Energy Agency presents its compliments to H.E. the Director General of the IAEA and has the honour to request inclusion of a supplementary item into the agenda of the 59th regular session of the General Conference of the IAEA entitled "Promotion of Efficiency and Effectiveness of IAEA Decision making process".

The Permanent Mission of the Islamic Republic of Iran to the International Atomic Energy Agency avails itself of this opportunity to renew to His Excellency Amano the assurances of its highest consideration.

Encl.: Explanatory Note

To His Excellency Mr. Yukiya Amano
Director General
IAEA

Explanatory Note by the Islamic Republic of Iran
on Promotion of Efficiency and Effectiveness of
IAEA Decision Making Process

“Promotion of Efficiency and Effectiveness of IAEA Decision Making Process” is an urgent need to make IAEA correspond to current global realities. Therefore, a comprehensive discussion on IAEA current decision making process and to explore ways and means on promotion of its efficiency and effectiveness particularly in light of the following points are required:

- Recalling Article IV (C) of the Statute on the principles of Sovereign States of all Members of the Agency, in order to ensure to all of them the rights and benefits resulting from membership,
- bearing in mind the fundamental structural changes that have been taken place in the recent decades in international relations, particularly in the global nuclear community engaged in the peaceful uses of nuclear energy,
- bearing also in mind the limited and inequitable geographical representation of Members on the IAEA Board of Governors and recalling paragraph (c) of the *Resolution GC(41)/RES/20 adopted by the General Conference on 3 October 1997* which noted the interest of Member States of all regions in considering Board membership in the light of geopolitical and technical realities which was endorsed later by the General Conference Resolution entitled GC(43)/RES/19 of October 1999 on amendment to Article VI,
- recognizing the obstacles before entry into force of Resolution GC(43)/RES/19 of October 1999 while the vast majority of Members hold the view to expand the size and composition of the Board,
- taking note of the necessity of direct engagement and participation of all Member States in the decision making process regarding all fundamental issues related to the work of Agency or having impact on sovereign rights of Member States by the Board of Governors resolutions specifically those not adopted with consensus,

- recognizing the need for restructuring the Board of Governors including the mandate and composition in light of developments in last decade, recognizing that the Agency's longer term and strategic decisions, particularly those that could affect sovereign rights, national security, membership status or the interests of Member States in the application of atomic energy for peaceful uses in accordance with the Statute, shall only be taken by all Member States within the General Conference,
- recalling the decision of previous General Conference to insert the issue of "Promotion of Efficiency and Effectiveness of IAEA Decision Making Process" into its Agenda which was followed by a fruitful discussion of the issue in the Committee of the Whole where several delegations expressed their desire on its consideration at the 2015 session of the General Conference with a view to continue consultations on the issue,
- being mindful of the need to promote the efficiency of the working methods and application of procedures of the IAEA bodies to take advantage of the advanced technologies including by improving the Method of Voting in the IAEA General Conference and taking note of the request made to the Secretariat to continue to examine the matter.

In this vein, the inclusion of an item entitled "Promotion of Efficiency and Effectiveness of IAEA Decision Making Process" in the agenda of the 59th regular session of the General Conference would facilitate the continuation of a comprehensive discussion on the issue.
