GENERAL ARRANGEMENTS

The 63rd regular session of the General Conference (GC) will open on **Monday, 16 September 2019, at 10.00 a.m.** It will be held in the M and C buildings of the Vienna International Centre (VIC).

FORMALITIES ON ARRIVAL

All participants are requested to register online through the International Atomic Energy Agency (IAEA) General Conference registration system: <https://gc-registration.iaea.org>.

To avoid long queues during the morning of Monday, 16 September, registered participants are strongly encouraged to collect their badges in advance by presenting a valid photo ID at the IAEA Registration Desk at Gate 1 on the following days:

Thursday, 12 September	12.00 noon to 4.00 p.m.
------------------------	-------------------------

Friday, 13 September	9.00 a.m. to 6.00 p.m.
----------------------	------------------------

Sunday, 15 September	11.00 a.m. to 6.00 p.m.
----------------------	-------------------------

Badges should generally be collected in person, but an authorized person can pick up pre-printed badges in advance by presenting a note verbal or an official letter specifying the name of the collector and listing the names of participants whose badges are to be collected. Please note that, once collected, badges cannot be returned to the IAEA Registration Desk or be reprinted. Should advance collection of badges on Thursday, 12, Friday, 13 and Sunday, 15 September not be possible, badges can be collected at the IAEA Registration Desk at Gate 1 as of **7.30 a.m. on Monday, 16 September 2019**.

Participants who have not registered online and participants who did not send a photograph are requested to enter through Gate 1 and proceed to the designated IAEA Registration Desk, where staff will assist them with the registration process and/or photo badging. Participants are required to present a photo ID and a copy of their official nomination at the IAEA Registration Desk.

Please note the registration hours for on-site registration:

Thursday, 12 September	12.00 noon to 4.00 p.m.
Friday, 13 September	9.00 a.m. to 6.00 p.m.
Sunday, 15 September	11.00 a.m. to 6.00 p.m.
Monday, 16 September	7.30 a.m. to 6.00 p.m.
Tuesday, 17 September	8.00 a.m. to 6.00 p.m.
Wednesday, 18 September	9.00 a.m. to 12.00 noon

Please allow ample time for security screening and registration.

TIMES OF MEETINGS

The opening Plenary of the 63rd General Conference will take place on **Monday, 16 September 2019, at 10.00 a.m.** in the Plenary Hall in the M building, first floor (M01). Unless otherwise decided by the Conference, morning meetings will begin at 10.00 a.m. and afternoon meetings at 3.00 p.m. Delegates are kindly requested to be in their places by those times in order to allow meetings to start punctually. Evening meetings, as and when they become necessary, will be announced during the session.

MEETING ROOMS

Plenary meetings will be held in the Plenary Hall in the M building, first floor (M01); the Committee of the Whole will meet in Board Room C in the C building, fourth floor (C04); and both the General Committee and the Credentials Committee will meet in Conference Room M6 in the M building, ground floor (M0E).

The starting time of all meetings will be shown on monitors throughout the M and C buildings.

General information about the Conference, such as the location of meeting rooms and offices, telephone extensions and various services, may be obtained at the Information Desks at the entrance to the M building, ground floor (M0E), extension 27999, and on the first floor (M01), extension 27277.

Reservation of meeting rooms can be requested in the M building, first floor, room M01 22, extension 27000. Rooms are assigned on an hourly, and first-come first-served basis.

Portable headsets and receivers will be available in the Plenary Hall and in the room of the Committee of the Whole for simultaneous interpretation in the six official languages. **As receivers must be charged between meetings, participants are requested not to remove them from the meeting rooms.**

CREDENTIALS

Heads of Delegation (but not other members of delegations) will require credentials specifically for the session, **even if they are already accredited to the IAEA in some other capacity** (for example, as Resident Representative).

In accordance with Rule 27 of the Rules of Procedure of the General Conference, original credentials must be issued either by the Head of State or Government or by the Minister for Foreign Affairs of the Member State concerned and must be submitted to the Acting Director General, preferably not later than seven days before the start of the Conference, i.e. **Monday, 9 September 2019**, in order to facilitate the smooth proceeding of the Conference, in particular the work of the General Committee. As of **2.30 p.m. on Sunday, 15 September 2019**, credentials that have not previously been submitted to the Acting Director General should be hand delivered directly to the Credentials Officer (M building, ground floor, room M0E 69). **Please note that credentials cannot be accepted during registration at Gate 1 of the VIC.**

For any assistance regarding credentials, please contact the Credential Officer at Credentials@iaea.org.

LIST OF PARTICIPANTS

A provisional list of participants will be issued on **Monday, 16 September 2019**, containing information that has been received by the Secretariat by **Tuesday, 10 September 2019**. A final list of participants — containing information that has been communicated to the Secretariat by **3.00 p.m. on Wednesday, 18 September 2019** — will be issued on **Friday, 20 September 2019**. Member States and organizations will be provided with only one printed copy of the provisional list. The electronic version of the final list of participants will be available on the General Conference website. Printed versions of the final list will be available on demand only. Requests shall be communicated to the Protocol office, M0E 75 (M building, ground floor) by noon on Wednesday, 18 September 2019. The

ordered copy can be picked up on Friday, 20 September 2019 in the Protocol office, MOE 75.

SPEAKERS IN THE GENERAL DEBATE

In order to facilitate the conduct of business, a speakers' list is kept for the general debate and — where appropriate — for other items in Plenary meetings. As communicated in document GC(63)/INF/1, issued on 10 May 2019, the list of speakers for the general debate was opened on 19 June 2019. Any delegates who have not yet inscribed their names on the list but wish to deliver a statement in the general debate are requested to contact the Speakers' List Assistants, who will have a desk in the Plenary Hall in the M building, first floor (M01). In accordance with the practice followed at previous sessions, efforts will be made to give priority to Ministers participating in the general debate.

STATEMENTS IN THE GENERAL DEBATE

In line with the decision adopted by the Conference in 2016 on streamlining the work of the General Conference, delegates are requested to limit their statements to **seven minutes**.

The general debate usually extends over four days. With a view to making the best use of the time available during the sixty-third regular session, Member States may wish to consider the desirability of making group statements.

To facilitate interpretation and distribution of statements in the general debate, texts of statements to be delivered should be handed in advance to the Statements Desk in the Plenary Hall. The name, rank and gender of the person delivering the statement should be clearly marked on the cover/first page of the statement.

All statements will be made available on the IAEA's website, <https://www.iaea.org/about/policy/gc/gc63/statements>, in PDF and audio-video format, unless the Member State restricts distribution and clearly marks its statement to that effect. Only the orally delivered statements will be included in the official records.

DISTRIBUTION OF PRINTED MATERIAL BY DELEGATIONS DURING THE CONFERENCE

Delegates may distribute printed material intended for Conference participants in the designated area in the M building, first floor (M01). Delegates may not distribute printed material inside the Plenary Hall. For any questions, please contact Conference Services (GC.Contact-Point@iaea.org).

DOCUMENTS

In line with the IAEA's environment-friendly concept for the distribution of documents, General Conference documentation will be available electronically at <https://www.iaea.org/About/Policy/GC/GC63/Documents>.

Draft resolutions will be available on GovAtom. Hard copies can be obtained, upon request, at the Documents Counter near the Plenary Hall, or at the Documents Counter near Board Room C (C building, fourth floor, C04).

This Conference Handbook which contains the weekly programme and additional useful information, will be issued only once, during the week preceding the General Conference, and will be available online as well as at Information Desks and at the Documents Counter in the M building, first floor (M01). Daily summaries of meetings will be made available online. A daily schedule of events will be available online and in printed form at the Information Desks and Documents Counters. All events will also be displayed on the monitors throughout the M and C buildings.

Delegates wishing to submit draft resolutions or other documents to the Conference during the session are requested to provide the text **as early as possible** to the Conference Secretary or the Secretary of the Committee of the Whole (Mr Austin McGill, email: A.J.McGill@iaea.org or SEC-PMO.Contact-Point@iaea.org).

A limited amount of typing and printing for delegations can be arranged at the Delegation Assistance Office in the M building, ground floor, room M0E 23.

IAEA CONFERENCES AND MEETINGS APP

The IAEA Conferences and Meetings app is available for download through Google Play and the iTunes Store.

The app will provide information on the Plenary, Committee of the Whole (CoW) meetings, exhibitions, side events and organized visits, and the Scientific Forum.

The app allows participants to:

- Put together a personalized schedule and view up to date programme information on all Conference related events;
- Receive updates on the Plenary speakers' list and the starting times of Plenary and CoW sessions; and
- View PowerPoint presentations of those speakers who have permitted their release after the presentation.

CODE OF CONDUCT TO PREVENT HARASSMENT, INCLUDING SEXUAL HARASSMENT AT UN SYSTEM EVENTS

The International Atomic Energy Agency (IAEA) adheres to the Code of Conduct to Prevent Harassment, Including Sexual Harassment, at UN System Events (the Code of Conduct), endorsed by the High-level Committee on Management (HLCM) of the United Nations system in July 2019.

All UN system events are guided by the highest ethical and professional standards and the Agency commits to engaging in events at which everyone can participate in an inclusive, respectful and safe environment.

All participants of the 63rd General Conference are expected to uphold the standards set out in the Code of Conduct (<https://www.iaea.org/sites/default/files/19/08/code-of-conduct-un-events.pdf>).

To report a matter of harassment, participants may contact the Director of Conference and Document Services under extension 27241.

GREENING THE 63rd IAEA GENERAL CONFERENCE

In line with its commitment to sustainability, the IAEA will organize the 63rd regular session of the Conference as a green meeting in accordance with the Austrian Ecolabel

(<https://meetings.umweltzeichen.at/display/zertifikat/141924.html>). This means that the IAEA will keep the ecological impact of the General Conference as low as possible. The VIC is already a workplace that is powered by carbon neutral electricity from 100% renewable sources. There will be further focus on paper-smart documentation, waste reduction and recycling, and environmentally friendly catering.

Delegates can have a role in this endeavour and are encouraged to choose environmentally friendly options when planning their participation. Small actions can make a big difference: choosing environmentally certified accommodation (<https://iaea.ax-travel.at/wp-content/uploads/2019/05/HOTEL-LIST-VIENNA-2019-update-02MAY19.pdf>), giving feedback via the IAEA Conference and Meetings app, sorting waste for recycling, and returning name badges — these will all help to reduce the environmental impact. For information on how to effectively contribute to climate protection, both locally and globally, see <https://www.myclimate.org>.

Vienna has an efficient network of public transport — buses, trains, trams and underground lines — that covers most of the city. The IAEA encourages participants to make full use of these greener modes of transportation.

For additional information see <https://www.iaea.org/sites/default/files/18/07/greening-the-vic.pdf>.

INFORMATION ON ACCESSING THE VIENNA INTERNATIONAL CENTRE (VIC)

Delegates are advised to finalize their registration no later than Tuesday, 10 September 2019 and to collect their badges ahead of the General Conference.

The Secretariat will facilitate the early collection of General Conference badges and on-site registration from **Thursday, 12 September** to **Sunday, 15 September 2019**.

Access between the VIC and the Austria Center Vienna (ACV)

The ACV has limited office space for rental on level 3 and level -2 during the week of the General Conference. Due to a large construction project in the ACV, it will not be possible to rent office space in the front part of the building and the connecting door to the M building will remain closed.

Access between the ACV and the VIC will be possible only via the G building of the VIC. Delegates walking to/from the ACV will use the VIC elevators located between the G building and the ACV. On arrival at level 3, delegates will be subject to screening by United Nations Security and Safety Service staff. Delegates wishing to access rooms on the -2 level, should use ACV elevators on the 3rd level.

The elevators will be open on Sunday 15 September 2019 from 1.00 p.m. to 7.00 p.m. and during the week from 8.00 a.m. until 1 hour after the end of meetings.

Access to the VIC by temporary drivers/vehicles

Apart from drivers and cars of Permanent Missions, additional chauffeured cars may be allowed entry to the VIC for the duration of the conference. Requests for driver passes and temporary parking permits shall be submitted in the form of a note verbal via email to Protocol (protocol.contact-point@iaea.org) and Garage Administration (vicgarageadmin@unvienna.org) as soon as possible, or at least 1 working day prior to the conference. Driver passes (at Gate 1, UN Pass Office) and temporary parking permits (at Garage Administration, Rotunda next to the newspaper shop) must be picked up in advance as they will be required when accessing the VIC.

Due to space limitations at the VIC, parking permits for temporary vehicles will be allocated on a first-come first-served basis as long as there are spots available. Vehicles accessing the VIC via Gate 2 should not exceed 2.10 metres in height.

Facilities for People with Disabilities

Access to the VIC

The ground floor (level 0E) of C building can be reached by ramps in P1/-1, leading to elevators and barrier-free access to all other buildings.

Elevators

All elevators in the VIC are suitable for people with disabilities. They can be found easily in the centre of each building. For accessing the dedicated parking lots for persons with disabilities on Park Deck P1, the "elevator C6" on the ground floor of the C building can be used. All elevators are also equipped with Braille's script to assist the visually impaired people.

Cafeteria and Restaurant

Free-flow area with barrier-free tables and barrier-free terrace seating

arrangements, for people with disabilities, are available at the Cafeteria and Restaurant located on the ground floor of the F building.

Medical Services

Barrier-free access to the Medical Services is available in the F building, seventh floor.

Toilets

Several toilets are adapted to disabled people needs.

Additional information can be found under

<https://www.iaea.org/sites/default/files/18/07/vic-guidebook-disabilities.pdf> or contact GC.Contact-Point@iaea.org

EMERGENCY EVACUATION PROCEDURES

In the event of an emergency evacuation, participants should follow the instructions of the United Nations security personnel on duty.

The meeting facilities meet all general safety and fire safety standards, thus ensuring the safe evacuation of the entire complex. All emergency exits and escape routes meet the highest safety standards.

Should it become necessary to evacuate parts or all of the M building or the entire VIC, an announcement will be made by the United Nations Security and Safety Service by means of the public-address system or in person. Please follow the directions of the Security and Safety personnel and evacuate the area immediately via the indicated emergency escape route. Should you or anyone in your party require assistance (e.g. physically challenged or injured) please inform Security and Safety personnel immediately.

Evacuation would be via the M building, ground floor (M0E). Using the staircases in the four corners of the M building, all persons would descend to the ground floor (M0E level) and from there exit the building via the signposted emergency exit glass doors onto Bruno-Kreisky-Platz in front of the ACV. The only exception is the M building, first floor (M01 level), which has a direct exit to a terrace and from there a stairway down to Bruno-Kreisky-Platz and the ACV.

Following evacuation, Safety and Security personnel will search the entire area to ensure that no one has been left behind.

RECEPTION HOSTED BY THE PRESIDENT OF THE GENERAL CONFERENCE AND THE ACTING DIRECTOR GENERAL

The President of the 63rd regular session of the General Conference and the Acting Director General will host a reception on **Monday, 16 September 2019, at 6.15 p.m.** in the M building, ground floor (M0E).

FINANCIAL CONTRIBUTIONS TO THE TECHNICAL COOPERATION FUND FOR 2020

To enable the provision of up to date information to the General Conference regarding contributions to the Technical Cooperation Fund (TCF) for 2020, Contributions Unit staff will be available to receive pledges in the M building, ground floor, room M0E 67, extension 21350, or, immediately before and during Plenary meetings, at a desk in the Plenary Hall near the podium (M building, first floor).

Contributions Unit staff are also available to discuss issues pertaining to Regular Budget and National Participation Cost payments, as well as to respond to any questions Member States may have in respect of arrears, payment plans and voting rights. The opening hours of the Contributions Unit office will be from **Monday, 16 September** until **Thursday, 19 September 2019**, from 8.00 a.m. until 7.00 p.m., and on **Friday, 20 September 2019**, from 8.00 a.m. until close of the Plenary.

2019 IAEA SCIENTIFIC FORUM

A Decade of Action on Cancer Control and the Way Forward

Tentative Programme of the Scientific Forum

Moderator:

Ms Melinda Crane, Chief Political Correspondent, Deutsche Welle-TV

The objective of the Scientific Forum, first held in 1998, is to stimulate discussion of scientific and technical issues related to the IAEA's activities and of interest to Member States. This year the Scientific Forum will be on the theme **"A Decade of Action on Cancer Control and the Way Forward"**.

The IAEA Scientific Forum will take place on Tuesday and Wednesday, 17 and 18 September 2019 from 9.30 a.m. to 6.00 p.m. and 9.30 a.m. to 3.00 p.m. respectively, in Board Room D, C building, fourth floor (C04).

Tuesday, 17 September 2019

9.30 a.m.–11.00 a.m. Opening Session

Statement by IAEA Acting Director General and high-level speakers

Film screening

11.00 a.m.–11.30 a.m. **Coffee Break**

11.30 a.m.–1.00 p.m. Session 1:

Ten Years of Cancer Control — the Experience of Member States

Speakers from Member States will describe their experience in establishing infrastructure for nuclear and radiation medicine as part of cancer care efforts. The role played by the IAEA will be highlighted in areas related to the introduction of comprehensive cancer control policies, support in the development of legislation and a regulatory framework for nuclear safety and security, and the acquisition of technology and equipment.

1.00 p.m.–2.30 p.m. **Lunch Break**

2.30 p.m.–3.15 p.m. Session1:

Ten Years of Cancer Control — the Experience of Member States

Continued

3.15 p.m.–4.15 p.m. Session 2:

The IAEA Response to the Evolving Needs of Member States

This session will focus on addressing the evolving needs of Member States in cancer control. It will cover areas such as prioritizing needs for maximum impact and keeping pace with changing technology — including through education and training, the use of information technologies and the development of networks. The session will also look at quality management, dosimetry services and advisory missions.

4.15 p.m.–4.45 p.m. Coffee Break

4.45 p.m.–6.00 p.m. Session 2:

The IAEA Response to the Evolving Needs of Member States

Continued

6.00 p.m. Reception

Wednesday, 18 September

9.30 a.m.–10.35 a.m. Session 3:

An Overview of Technology Advances in Nuclear and Radiation Medicine

This session will showcase how imaging techniques play an increasing role in providing precise cancer diagnosis, more effective treatment and better assessment of therapeutic impact. It will also provide an overview of the existing uses of radiation in medicine, including radiotherapy, radiopharmaceuticals and theranostics.

10.35 a.m.–11.05 a.m. Coffee Break

11.05 a.m.–12.20 p.m. Session 4:

Supporting Cancer Control Programmes through Partnerships

The session will provide an opportunity to share experiences and explore avenues to help Member States in cancer control efforts, including through strategic partnerships with global institutions and the development of

bankable documents. The topic of health economics will also be discussed in relation to resource mobilization for cancer care activities.

12.30 p.m.–2.00 p.m. Lunch Break

2.00 p.m.–3.00 p.m. Closing Session

For registration and additional information visit:

<https://www.iaea.org/about/policy/gc/gc63/events/scientific-forum>

TECHNICAL COOPERATION MEETINGS

Representatives of the AFRA, ARASIA, ARCAL and RCA cooperative agreements, as well as of Member States from the Europe region will meet at the following times and locations:

RCA: When: Friday, 13 September, 9.00 a.m.–6.00 p.m.
Where: Conference Room M4, M building, ground floor

ARASIA: When: Tuesday, 17 September, 10.00 a.m.–1.00 p.m.
Where: Conference Room M6, M building, ground floor

**TC Europe
Regional
Meeting:** When: Thursday, 19 September, 3.00 p.m.–5.00 p.m.
Where: Conference Room M5, M building, ground floor

ARCAL: When: Thursday, 19 September, 3.30 p.m.–6.00 p.m.
Where: Conference Room C4, C building, seventh floor

AFRA: When: Friday, 20 September, 10.00 a.m.–11.30 a.m.
Where: Conference Room C3, C building, seventh floor

CONSULTATIONS WITH MEMBER STATES

Consultations with the representatives of Member States engaged in technical cooperation activities with the IAEA are being held prior to the General Conference sessions. For delegations present in Vienna only during the week of the General Conference, and for specific issues or special problems, meetings will be arranged during that week. In such cases, the Department of Technical Cooperation has provided advance notice of the meeting times and venues to individual delegations. Delegations that have not received such advance notice but wish to discuss technical cooperation issues with members of the Secretariat are requested to contact the corresponding TC Regional Director:

Africa — Mr S. Abdulrazak (room B10 45), tel.: +43 (1) 2600-22350

Asia and the Pacific — Ms J. Gerardo-Abaya (room B09 64), tel.: +43 (1) 2600-22420

Europe — Ms A. Raffo-Caiado (room B10 64), tel.: +43 (1) 2600-22500

Latin America and the Caribbean — Mr L.C. Longoria Gandara (room B11 09),
tel.: +43 (1) 2600-25900

OTHER MEETINGS

The following additional meetings have been scheduled:

The International Nuclear Safety Group Forum on the Safety–Security Interface

In a meeting open to all General Conference participants, the International Nuclear Safety Group (INSAG) Forum will provide insights from INSAG and other experts on the safety–security interface.

This event will be held on **Monday**, 16 September 2019, from 2.00 p.m. to 4.00 p.m. in Conference Room C3, C building, seventh floor.

Nuclear Operators’ Forum: Challenges and Solutions for the Sustainable Management of the Nuclear Supply Chain

This forum will provide an opportunity for Member States to share and discuss current and future challenges related to the management of the nuclear supply chain. It will cover management, quality, oversight, regulation, sustainability, innovative technologies, suspect items, spare parts and reliability of the nuclear supply chain in Member States with operating nuclear power plants.

This event will be held on **Tuesday**, 17 September 2019, from 9.30 a.m. to 11.00 a.m. in Conference Room C4, C building, seventh floor.

Senior Safety and Security Regulators’ Meeting

At this meeting, heads of regulatory authorities and other senior regulatory officials in the fields of nuclear, radiation, transport and radioactive waste safety and nuclear security will discuss regulatory challenges and share good practices. The meeting will also focus on IAEA Secretariat initiatives to support regulatory bodies.

This event will be held on **Thursday**, 19 September 2019, from 9.00 a.m. to 6.30 p.m. in Board Room D, C building, fourth floor.

EVENTS ORGANIZED AND/OR CO-SPONSORED BY THE SECRETARIAT IN CONJUNCTION WITH THE CONFERENCE'S SESSION*

Information on specific meetings, discussions, round tables and briefings being organized in conjunction with the Conference, and listed below, has been provided in the Advance Information for Delegations (document GC(63)/INF/5).

For up to date information on meeting times and room numbers please check the daily schedule of events (<https://iaea.org/about/policy/gc/gc63/schedule>), the IAEA Conferences and Meetings app and the monitors in the M and C buildings.

Showcasing the ReNuAL Project and Highlighting its Accomplishments

This side event will focus on the progress of ReNuAL/ReNuAL+ project. New donors will place their country's brick into a small replica of the Donor Wall. The event will also highlight the extensive benefits the ReNuAL initiative will provide for all Member States.

The event will be held on **Monday**, 16 September 2019, from 12.00 noon to 1:00 p.m. at the entrance to M building leading to A building.

An INPRO Service to Member States: Analysis Support for Enhanced Nuclear Energy Sustainability

This event will present INPRO support to Member States in developing a long term vision for deployment of existing and innovative nuclear energy technologies, including fuel cycle facilities. This includes training and guidance on national strategic planning and long term development of nuclear energy programmes, considering the potential of technical innovation and cooperation among countries.

* Download the IAEA Conferences and Meetings app available through Google Play and the iTunes Store to view up-to-date programme information on all Conference related events.

This event will be held on **Monday**, 16 September 2019, from 1.30 p.m. to 2.00 p.m. at ESPACE M01, M building, first floor.

Treaty Event

The Treaty Event aims to promote universal adherence to multilateral treaties for which the Director General of the IAEA is depositary, by providing an additional opportunity to deposit instruments of ratification, acceptance, approval or accession. The Treaty Event this year will focus on the Convention on Nuclear Safety, the Joint Convention on the Safety of Spent Fuel Management and on the Safety of Radioactive Waste Management, as well as the Convention on the Physical Protection of Nuclear Material and its Amendment.

This event will be held on **Monday**, 16 September 2019, from 2.00 p.m. to 3.00 p.m. in Meeting Room M0E 68, M building, ground floor.

SDP — The Efficient Way to Submit Safeguards Reports and Declarations

The State Declarations Portal (SDP) provides an online method for State and regional authorities to submit safeguards declarations and communicate with the IAEA Department of Safeguards. This side event will demonstrate how to submit a safeguards declaration through SDP. Visitors will also be provided with a starter kit to use the SDP.

This event will be held on **Monday**, 16 September 2019, from 2.30 p.m. to 3.00 p.m. at ESPACE M0E, M building, ground floor.

Nuclear Power Reactor Spent Fuel Management: 30 Years of Research

Spanning over more than 30 years, two IAEA series of coordinated research projects (BEFAST and SPAR) have acted as a vehicle for international research and development collaboration on the behaviour of spent nuclear fuel during storage. This event will provide an overview of the findings of the projects and introduce the recent publication collating all the findings.

This event will be held on **Monday**, 16 September 2019, from 2.30 p.m. to 3.00 p.m. at ESPACE M01, M building, first floor.

Global Status of Decommissioning

This event will provide an overview of a new IAEA collaborative project to share information on existing decommissioning plans and projects and their status, including main recent achievements and future challenges in this field.

This event will be held on **Monday**, 16 September 2019, from 3.30 p.m. to 4.00 p.m. at ESPACE M01, M building, first floor.

International Conference on Nuclear Security (ICONS) 2020: Preview

A panel discussion will highlight how the topics of the International Conference on Nuclear Security, to be held in February 2020, impact nuclear security globally. The topics are: international legally and non-legally binding instruments for nuclear security; role of the IAEA in nuclear security; national nuclear security regimes; emerging technologies and the digital age; and international cooperation in information exchange, sharing of good practices and broader experience to enhance nuclear security.

This event will be held on **Monday**, 16 September 2019, from 4.00 p.m. to 5.00 p.m. in Conference Room C4, C building, seventh floor.

Gender Equality and the Workplace: How to be an Employer of Choice for Women

This panel event will explore how organizations can effectively attract and retain qualified women, creating a place where women want to work. Senior leaders from the nuclear field will explore the role of formal policies, informal networks, and organizational values in creating a more representative and inclusive workplace that is an employer of choice for women.

This event will be held on **Tuesday**, 17 September 2019, from 8.30 a.m. to 10.00 a.m. at ESPACE M02, M building, second floor.

Building Future Safeguards Capabilities: Insights from the 2018 Symposium on International Safeguards

Every four years, the IAEA holds the Symposium on International Safeguards, which engages the broader safeguards community to address challenges and seize opportunities in strengthening the effectiveness and efficiency of safeguards implementation. This event will showcase the insights and outcomes of the 2018 Symposium.

This event will be held on **Tuesday**, 17 September 2019, from 9.00 a.m. to 10.00 a.m. at ESPACE M0E, M building, ground floor.

Vacancies and Recruitment Process at the IAEA

During this event, IAEA Recruitment Officers will walk participants through the recruitment and application process, and will provide participants with tips on how to create an impactful application, understand the job description, describe their achievements, write a cover letter and sign up for job updates relevant to their areas of interest.

This event will be held on **Tuesday**, 17 September 2019, from 10.00 a.m. to 11.00 a.m. in Conference Room M7, M building, ground floor.

Towards a Strong Radiation Safety Culture in Medicine: IAEA Activities

Healthcare stakeholders have designated 17 September as International Patient Safety Day, and the 2019 focus is 'Safety Culture at all Levels'. This side event highlights the IAEA's work to strengthen safety culture in medical facilities. Speakers will discuss how to improve radiation safety culture in medicine and how to support radiation protection and patient safety in general.

This event will be held on **Tuesday**, 17 September 2019, from 10.30 a.m. to 11.00 a.m. at ESPACE M01, M building, first floor.

IAEA Support to Environmental Remediation Projects

This side event will showcase successful environmental remediation initiatives supported by the IAEA and highlight partnership opportunities. It will also celebrate the tenth anniversary of the IAEA Network on Environmental Management and Remediation (ENVIRONET) and announce the first IAEA International Conference on the Management of Naturally Occurring Radioactive Material (NORM) in Industry.

This event will be held on **Tuesday**, 17 September 2019, from 11.30 a.m. to 1.00 p.m. in Conference Room C5, C building, seventh floor.

IAEA Power Reactor Information System (PRIS) Turns 50: The World's Leading Information System on Nuclear Power Reactors

Developed and maintained by the IAEA for five decades, the Power Reactor Information System (PRIS) is a comprehensive database that details the complete history of nuclear power operations in the world. During this event, Member States will have the opportunity to learn how to generate both global and unit specific reports or graphs on nuclear energy status, performance and trends.

This event will be held on **Tuesday**, 17 September 2019, from 1.00 p.m. to 1.30 p.m. at ESPACE M0E, M building, ground floor.

Understanding IAEA Procurement

This event will provide helpful tips to Member States and suppliers on the IAEA procurement process and how to do business with the IAEA. The presentation will outline the roles and responsibilities of the main stakeholders, the key steps in the procurement process, and an overview of IAEA procurement volume and categories purchases. The presentation will be followed by a question and answer session.

This event will be held on **Tuesday**, 17 September 2019, from 2.00 p.m. to 3.00 p.m. at ESPACE M02, M building, second floor.

Preparing the Next Generation of the Workforce for the Nuclear Industry: The Journey from Graduate to Professional

This side event will discuss skill development, professional awareness, competencies, career advancements and other related issues relevant to the transfer of knowledge to young professionals and their retention in the industry. The event will feature the European Master of Science in Nuclear Engineering award ceremony of the European Nuclear Education Network Association.

This event will be held on **Tuesday**, 17 September 2019, from 2.00 p.m. to 4.00 p.m. in Conference Room C4, C building, seventh floor.

Leading for Safety: What I Learned at the International School of Nuclear and Radiological Leadership for Safety

At this side event, young and mid-career professionals who have taken part in the IAEA International School of Nuclear and Radiological Leadership for Safety discuss how the course helped them develop as safety leaders. They will highlight how the school's interactive methodology influenced their ability to strengthen safety at their current work places, and to continue to lead for safety throughout their careers.

This event will be held on **Tuesday**, 17 September 2019, from 2.00 p.m. to 4.00 p.m. at ESPACE M0E, M building, ground floor.

Strengthening Safeguards Implementation in Member States through Collaboration

The IAEA continues to assist Member States in establishing and strengthening their State systems of accounting for and control of nuclear material (SSACs). This event will highlight how in the past eight years over 20 IAEA's SSAC Advisory Service missions, together with Integrated Nuclear Infrastructure Review missions, have enabled the sharing of best practices in the development of nuclear power.

This event will be held on **Tuesday**, 17 September 2019, from 2.30 p.m. to 3.00 p.m. at ESPACE M01, M building, first floor.

Options to Manage Spent Fuel from Research Reactors

This event will introduce management options for spent fuel from research reactors and the criteria used to compare the options. It will feature a real time simulation of decision support tools developed during a coordinated research project to assist Member States in selecting a suitable management strategy among several options.

This event will be held on **Tuesday**, 17 September 2019, from 3.00 p.m. to 4.30 p.m. in Conference Room M6, M building, ground floor.

Celebrating the 100th Edition of the Postgraduate Educational Course (PGEC) in Radiation Protection and the Safety of Radiation Sources – Vision for the Future

The PGEC in Radiation Protection and the Safety of Radiation Sources is regularly delivered across all regions in English, French, Russian, Spanish and in Portuguese. In its 37 years of existence, the courses have helped 120 countries build up radiation safety knowledge in young graduates. This side event will review the achievements and set out the vision for the future.

This event will be held on **Tuesday**, 17 September 2019, from 3.30 p.m. to 5.00 p.m. in Conference Room C5, C building, seventh floor.

Youth in Nuclear: Engaging the Next Generation of Leaders

This side event focuses on the role of youth in raising public awareness about the peaceful uses of nuclear science and technology, mentorship and the development of a skilled workforce. It will also encourage interaction between professionals of different backgrounds and generations of nuclear experts.

This event will be held on **Wednesday**, 18 September 2019, from 9.00 a.m. to 11.00 a.m. in Conference Room C4, C building, seventh floor.

The Sixth Plenary Meeting of the Global Nuclear Safety and Security Network

The Plenary meeting will provide a forum for IAEA Member States to discuss challenges related to the development of a sustainable radiation and nuclear safety infrastructure in line with the IAEA safety standards and international good practices. The IAEA Secretariat will brief participants on the IAEA's Consolidated Plan for Safety as a tool to assist Member States in addressing these challenges.

This event will be held on **Wednesday**, 18 September 2019, from 9.30 a.m. to 12.30 p.m. in Conference Room C3, C building, seventh floor.

Recent IAEA Safety Guides: Radiation Protection of the Public and the Environment

This side event offers an in-depth-look at three recently issued IAEA Safety Guides: Radiation Protection of the Public and the Environment (IAEA Safety Guide No. GSG-8); Regulatory Control of Radioactive Discharges to the Environment (GSG-9); and Prospective Radiological Environmental Impact Assessment for Facilities and Activities (GSG-10).

This event will be held on **Wednesday**, 18 September 2019, from 10.00 a.m. to 11.00 a.m. in Conference Room M4, M building, ground floor.

Promoting Science, Technology and Innovation Through Research: The IAEA's Collaborating Centres and Coordinated Research Activities

This event will outline aspects of two collaborative mechanisms focusing on research and development in the applications of nuclear energy: coordinated research activities, which bring together Member States' research institutes to conduct research of common interest; and Collaborating Centres, through which Member States can contribute to the IAEA's research, development and training projects in nuclear science and technology.

This event will be held on **Wednesday**, 18 September 2019, from 10.00 a.m. to 11.00 a.m. in Conference Room M6, M building, ground floor.

Presentation of the IAEA Nuclear Communicator's Toolbox

This event will present the newly launched IAEA Nuclear Communicator's Toolbox, which offers tools to support effective communication on the benefits and risks associated with nuclear technologies. It is intended for scientists, engineers and communication professionals who work in the field of nuclear science and technology applications or regulate their safe and secure use.

This event will be held on **Wednesday**, 18 September 2019, from 10.30 a.m. to 11.00 a.m. at ESPACE M0E, M building, ground floor.

Disused Sealed Radioactive Sources (DSRS) and DSRS -Net

This event will launch the DSRS-Net web-platform and feature a hands-on demonstration of handling disused sealed radioactive sources.

This event will be held on **Wednesday**, 18 September 2019, from 11.30 a.m. to 12.30 p.m. at ESPACE M0E, M building, ground floor.

Building Quantum Technology with Ion Beam Accelerators

Ion beam accelerators have a key role to play in materials modification at an atomic level. These new materials are an important part of the second quantum revolution. This side event will give examples of the novel applications that are emerging through quantum technology in terms of health, medicine and communications.

This event will be held on **Wednesday**, 18 September 2019, from 11.30 a.m. to 1.00 p.m. in Conference Room M6, M building, ground floor.

IAEA Knowledge Management Assist Visit

This side event will present methodologies, tools and examples of the IAEA Knowledge Management Assist Visit (KMAV) to organizations dealing with non-nuclear-power applications. It will address key elements for an effective approach to knowledge management, such as policy and strategy, human resource processes, training and competence development, procedures and documentation processes and IT solutions.

This event will be held on **Wednesday**, 18 September 2019, from 1.00 p.m. to 1.30 p.m. at ESPACE M0E, M building, ground floor.

20 Years of the Emergency Preparedness Review (EPREV) Service: Experience and Way Forward

Two decades after the IAEA's first EPREV mission, hosted by Indonesia, IAEA experts and selected mission hosts share insights from the 48 missions conducted so far and look ahead at the way forward for the service. IAEA speakers will summarize lessons learned and discuss plans for future improvements. EPREV host countries will share their views on the benefits and challenges of hosting an EPREV mission.

This event will be held on **Wednesday**, 18 September 2019, from 2.00 p.m. to 3.00 p.m. in Conference Room C4, C building, seventh floor.

Radiation Safety Information Management System (RASIMS) Version 2.0: An Online Tool to Evaluate National Radiation Safety Infrastructure

At this side event, the IAEA will present the Radiation Safety Information Management System (RASIMS) that enables Member States to compare their national infrastructure for radiation safety to relevant IAEA safety standards. This information can be used as the basis for designing projects and activities to address the identified needs, thus leading to a strengthened infrastructure for radiation safety that is consistent with the IAEA safety standards.

This event will be held on **Wednesday**, 18 September 2019, from 2.00 p.m. to 3.00 p.m. at ESPACE MOE, M building, ground floor.

Reactor Technology Innovation to Support Integration of Renewable Energy Systems and Nuclear Installations

Nuclear power reactors are often perceived as baseload providers only, but some are already contributing to grid stability through load following. This event will highlight technology innovation required to better complement intermittent renewables, especially in the light of climate change concerns. It will also feature a demonstration of IAEA's Advanced Reactors Information System (ARIS).

This event will be held on **Wednesday**, 18 September 2019, from 2.00 p.m. to 4.00 p.m. in Conference Room M7, M building, ground floor.

IAEA Operation and Maintenance Assessment for Research Reactors (OMARR) Review Service

This event will present the benefits and methodology of the IAEA Operation and Maintenance Assessment for Research Reactors (OMARR) mission. It will

also present the Research Reactor Ageing Database, intended for use by operating organizations in establishing, implementing and improving ageing management programmes for research reactors.

This event will be held on **Wednesday**, 18 September 2019, from 3.30 p.m. to 4.00 p.m. at ESPACE MOE, M building, ground floor.

New Nuclear Power Programmes: Coordinated International Support for Safety and Success

This side event highlights the IAEA Milestones approach and other IAEA support available to countries that are considering building new nuclear power plants to meet United Nations Sustainable Development Goal 7 on ensuring access to affordable, reliable, sustainable and modern energy for all. The event emphasises the role of sound regulatory arrangements, leadership capability and operational safety. The World Association of Nuclear Operators and the Electric Power Research Institute will also present their programmes for the newcomers.

This event will be held on **Wednesday**, 18 September 2019, from 3.30 p.m. to 5.00 p.m. in Conference Room C4, C building, seventh floor.

Improving Management of Cardiovascular Diseases in Women

Cardiovascular diseases kill more women over 60 than men of the same age. The mortality rates are more than double in low and middle income countries compared to high income countries. Women do not present the typical symptoms that lead to early evaluation and appropriate intervention. This side event will demonstrate how nuclear techniques play a pivotal role in a coordinated approach.

This event will be held on **Wednesday**, 18 September 2019, from 3.30 p.m. to 5.00 p.m. in Conference Room C3, C building, seventh floor.

Health Check: Applying Nuclear Safeguards at Radiopharmaceutical Facilities

The IAEA undertakes the verification of nuclear materials in peaceful use across the globe, including within radiopharmaceutical facilities. At this event, visitors can learn more about the definitions of nuclear material used at radiopharmaceutical facilities and discuss the associated analytical techniques used to verify such nuclear material.

This event will be held on **Thursday**, 19 September 2019, from 9.30 a.m. to 10.00 a.m. at ESPACE M0E, M building, ground floor.

New Edition of InTouch+

This side event will present the new edition of InTouch+, the web platform used for technical cooperation event applications. This edition will allow users to easily create/edit profiles, apply to events, and endorse and approve applications. Project Counterparts and National Liaison Officers/Assistants will learn about the new interface and be able to provide feedback.

This event will be held on **Thursday**, 19 September 2019, from 10.00 a.m. to 12.00 noon in Conference Room M4, M building, ground floor.

Capacity Building in Energy Planning and its Application for Addressing Sustainable Development and Climate Change Targets

This event will describe the IAEA programme for capacity building in energy planning and experience in its implementation. It will also present IAEA analytical tools for energy planning.

This event will be held on **Thursday**, 19 September 2019, from 10.30 a.m. to 11.00 a.m. at ESPACE M0E, M building, ground floor.

Recent Advances in Radiation Technologies

The side event will discuss different irradiation methods using radioisotope sources, such as Cobalt-60, and other radiation technologies. The presentations will focus on Gamma, E-beam, and X-ray facilities and the role of IAEA on supporting all the technologies.

This event will be held on **Thursday**, 19 September from 10.30 a.m. to 12.00 noon in Conference Room M7, M building, ground floor.

Nuclear Techniques for Preserving Cultural Heritage

This side event will present technical cooperation regional project activities on using nuclear techniques for cultural heritage preservation. The event will take the form of presentations followed by a Q&A and discussion session.

This event will be held on **Thursday**, 19 September 2019, from 12.00 noon to 1.30 p.m. in Conference Room M4, M building, ground floor.

The IAEA's Legislative Assistance Programme: Addressing Member States Needs

The IAEA, through its technical cooperation programme and Office of Legal Affairs, supports Member States in developing and maintaining national legal frameworks for the safe, secure and peaceful use of nuclear technology. Panellists at this event will exchange views on the benefits of these technical cooperation activities in addressing needs related to national legal frameworks.

This event will be held on **Thursday**, 19 September 2019, from 1.00 p.m. to 2.00 p.m. in Conference Room C4, C building, seventh floor.

Global Energy Expenditure Data: Helping Countries Tackle Growing Obesity Crisis

This event will be a demonstration of the first comprehensive database on human energy expenditure. The IAEA database contains over 6600 measurements from 23 countries collected using the doubly-labelled water method since 1981. It will help researchers look at the impact of growing sedentary lifestyles on dietary needs and whether energy expenditure has declined during the obesity epidemic.

This event will be held on **Thursday**, 19 September 2019, from 1.30 p.m. to 2.00 p.m. at ESPACE M01, M building, first floor.

Working in the IAEA Department of Safeguards

What is it like to work in nuclear safeguards? What sort of candidate profile does the IAEA look for in safeguards staff? How does the evaluation process for employing safeguards staff work? Visitors to this side event can learn more about careers opportunities in the IAEA Department of Safeguards.

This event will be held on **Thursday**, 19 September 2019, from 2.30 p.m. to 3.00 p.m. at ESPACE M0E, M building, ground floor.

Transport Safety E-learning Initiatives

The IAEA offers comprehensive e-learning on the safe transport of radioactive material. This side event introduces the e-learning course "Safe Transport of Radioactive Material", which provides training for regulators, operators and anyone interested in the regulatory requirements for the safe transport of radioactive material by sea, air and land.

This event will be held on **Thursday**, 19 September 2019, from 3.30 p.m. to 4.00 p.m. at ESPACE MOE, M building, ground floor.

Plenary of the Regulatory Cooperation Forum (RCF)

The RCF Plenary focuses on common regulatory infrastructure development issues faced by countries embarking on nuclear power programmes and facilitates information exchange and experience-sharing among newcomers and countries with operating experience. At this meeting, participants will share regulatory infrastructure development experience and knowledge, and review the RCF Strategy.

This event will be held on **Friday**, 20 September 2019, from 9.30 a.m. to 1.00 p.m. in Conference Room C4, C building, seventh floor.

EVENTS ORGANIZED BY MEMBER STATES IN CONJUNCTION WITH THE CONFERENCE'S SESSION

Illuminating the Hope for Life — the Application of Nuclear Technology in Diagnosis and Treatment of Cancer Worldwide

Every year millions of patients suffering from cancers worldwide experience a desperate hope for life after receiving rounds of treatments. Radiation medicine is useful and powerful tool in this regard. This event will focus on increasing public awareness of the benefits that advances in nuclear technology bring to the treatment of cancers. This event is organized by China.

This event will be held on **Monday**, 16 September 2019, from 10.00 a.m. to 11.00 a.m. in Conference Room M7, M building, ground floor.

United Kingdom Industrial Strategy: Nuclear Sector Deal

This event will present the role of the United Kingdom's Nuclear Sector Deal as part of its modern industrial strategy, aimed at ensuring that the United Kingdom's nuclear sector supports the country's clean growth ambitions. It will explain how the Deal is helping the nuclear sector develop, focusing on cost reduction, innovation and diversity. This event is organized by the United Kingdom.

This event will be held on **Monday**, 16 September 2019, from 10.00 a.m. to 11.00 a.m. in Conference Room C5, C building, seventh floor.

Preparation for and Implementation of Decommissioning of Research Reactors Highlighting IAEA Support

This event will highlight the IAEA's support in the decommissioning of research reactor IIN-3M 'Foton', and in preparing for research reactor decommissioning through the collaborative DACCORD project and other projects. It will present case studies of frameworks for research reactor decommissioning. This event is co-organized by Norway, the Russian Federation and Uzbekistan.

This event will be held on **Monday**, 16 September 2019, from 12.00 noon to 2.00 p.m. in Conference Room M5, M building, ground floor.

Documentary Screening: A Green Meadow

“A green meadow” — this is how the workers at the Ignalina nuclear power plant describe the final goal of the power plant’s deconstruction: in the end, after the cutting up of turbines, dismantling of the reactor and the demolition of the buildings there will be nothing but a green field left. This event is organized by Lithuania.

This event will be held on **Monday**, 16 September 2019, from 1.30 p.m. to 3.00 p.m. in Conference Room C5, C building, seventh floor.

Ageing Management: Synergies and Collaborative Expertise for Long Term Operation

As more and more nuclear installations enter long term operation, ageing management is becoming a critical competence. In this event, players in the French nuclear scene will explain how they address this challenge, building an expertise network with relevant infrastructures for developing knowledge and solutions ranging from research and development to end-user implementation. The event is organized by France.

This event will be held on **Monday**, 16 September 2019, from 1.30 p.m. to 3.30 p.m. in Conference Room C4, C building, seventh floor.

EC–IAEA Cooperation to Strengthen the Safety of Radioactive Waste and Spent Fuel Management

The side event will focus on lessons learned from and the way forward for the IAEA’s Integrated Review Service for Radioactive Waste and Spent Fuel Management, Decommissioning and Remediation (ARTEMIS) peer reviews, harmonization of national inventories, and global international cooperation and status and trends in radioactive waste and spent fuel. This event is organized by the European Commission.

This event will be held on **Monday**, 16 September 2019, from 2.00 p.m. to 4.00 p.m. in Conference Room M7, M building, ground floor.

Peaceful Uses of Nuclear Technology including the International Wildlife Trade

This joint side event by South Africa and the United Kingdom will highlight the contribution nuclear technology plays in development including its role in other issues such as combatting the illegal wildlife trade. This event is organized by South Africa and the United Kingdom.

This event will be held on **Monday**, 16 September 2019, from 3.00 p.m. to 4.00 p.m. in Conference Room M5, M building, ground floor.

Nuclear Science and Technology as an Instrument to Promote Innovation and Solutions to Increase Living Standards

This event will focus on collaboration perspectives in nuclear science and technologies and discuss ways to efficiently integrate nuclear science and technology into a country's economy, industry, science and education development strategies in order to meet the United Nations sustainable development goals. This event is organized by the Russian Federation.

This event will be held on **Monday**, 16 September 2019, from 3.30 p.m. to 5.00 p.m. in Conference Room M4, M building, ground floor.

The Current Status of Fukushima Daiichi Nuclear Power Plant Decommissioning

This event will present what has been done in decontaminating and decommissioning Fukushima Daiichi and how world nuclear communities could upgrade their support for safer, more effective and accelerated progress. This event is organized by Japan.

This event will be held on **Monday**, 16 September 2019, from 4.00 p.m. to 6.00 p.m. in Conference Room C3, C building, seventh floor.

Nuclear Medicine from the Lab to the Patient: Innovative and Proven Highlights of Belgian Contributions to Nuclear Medicine

For decades, Belgium has been a leading country in the promotion of nuclear medical applications. Being one of the largest producers of equipment and of medical radioisotopes for diagnostic and therapeutic applications, Belgium is continuously looking for new developments in the field that bring us closer to the patient. This event will give an overview of the main innovations that serve that end. This event is organized by Belgium.

This event will be held on **Tuesday**, 17 September 2019, from 9.00 a.m. to 11.00 a.m. in Conference Room C5, C building, seventh floor.

The NICE Future Initiative Year 2: The Flexible Nuclear Campaign and the Role of Nuclear in Future Clean Energy Systems

The event will highlight the Nuclear Innovation Clean Energy (NICE) Future initiative to inform countries considering cost effective clean energy options

about the role nuclear energy can play in supporting the expanding role of renewables, as well as the new capabilities advanced nuclear reactors bring to the table. This event is organized by the United States of America.

This event will be held on **Tuesday**, 17 September 2019, from 10.00 a.m. to 11.30 a.m. in Conference Room C3, C building, seventh floor.

The European and Central Asian Safety (EuCAS) Network: A Platform for Nuclear and Radiation Safety in Europe and Central Asia

This side event will showcase the European and Central Asian Safety (EuCAS) Network which helps members to connect, collaborate and communicate on nuclear and radiation safety. Since 2016, EuCAS has provided a platform for information and experience sharing among regulatory bodies and technical and scientific support organizations. This side event is organized by Norway.

This event will be held on **Tuesday**, 17 September 2019, from 10.00 a.m. to 12.00 noon in Conference Room M5, M building, ground floor.

Professional Community and Collaboration

This event will present experience in developing professional, youth and student communities to participate in nuclear projects, and the role of mentors and tutors in educating the new generation of engineers. It will showcase the contribution of companies to human resource development through early career guidance. The event is organized by the Russian Federation.

This event will be held on **Tuesday**, 17 September 2019, from 11.00 a.m. to 1.00 p.m. in Conference Room M7, M building, ground floor.

Small and Medium Sized and Modular Reactors (SMRs) to Power the Future: Opportunities and Challenges

This event will present the F-SMR project and feature a discussion among high level and key stakeholders involved. The event is organized by France.

This event will be held on **Tuesday**, 17 September 2019, from 11.00 a.m. to 12.30 p.m. in Conference Room G1, Austria Center Vienna, on -2 level.

International Day for the Total Elimination of Nuclear Weapons

This event will commemorate the International Day for the Total Elimination of Nuclear Weapons. The event is organized by the Bolivarian Republic of

Venezuela in its capacity as Chair of the Vienna Chapter of the Non-Aligned Movement (NAM).

This event will be held on **Tuesday**, 17 September 2019, from 11.30 a.m. to 12.30 p.m. at ESPACE M02, M building, second floor.

The Arab Network of Nuclear Regulators (ANNuR): Effective Partnerships for Nuclear Safety and Security in the Arab Region

This side event will showcase the Arab Network of Nuclear Regulators (ANNuR), which is a regional network that enables the exchange of information, knowledge, experiences and lessons learned among regulators in Arab countries. ANNuR plays a key role in sharing and maintaining the knowledge in nuclear safety and security, radiation protection, emergency preparedness. This side event is organized by Tunisia.

This event will be held on **Tuesday**, 17 September 2019, from 11.30 a.m. to 1.30 p.m. in Conference Room C4, C building, seventh floor.

VETLABS: A Southern Africa Success Story

The Veterinary Diagnostic Laboratory (VETLAB) Network has its origin in Southern Africa, where the need for better and faster veterinary laboratory capacities was addressed in an innovative way in cooperation with the IAEA. It has grown into a network of 45 African and 19 Asian countries and is poised to expand to Latin America and Eastern Europe. This side event will look at the success story. This event is organized by South Africa.

This event will be held on **Tuesday**, 17 September 2019, from 1.30 p.m. to 2.30 p.m. in Conference Room M6, M building, ground floor.

Improvements in Application of Nuclear Sciences in Human Health and Industry in the Islamic Republic of Iran

This event will consist of a short introduction on radiation applications in the Islamic Republic of Iran, and the capabilities of the Islamic Republic of Iran in indigenously supplying and meeting domestic needs in this area. The event will also introduce future programmes of the Islamic Republic of Iran in the field of nuclear sciences and applications in human health (nuclear medicine) and industry. This event is organized by the Islamic Republic of Iran.

This event will be held on **Tuesday**, 17 September 2019, from 1.30 p.m. to 3.00 p.m. in Conference Room M7, M building, ground floor.

Robots, Drones and Game Changing Brains: The Future Facing Story of UK Decommissioning

This side event will present how the United Kingdom uses innovative solutions in decommissioning across multiple sites; in harnessing the brightest minds to form the next generation of decommissioning experts; and in reducing costs and optimizing efficiency and safety of decommissioning through the United Kingdom's ambitious Nuclear Sector Deal. This event is organized by the United Kingdom.

This event will be held on **Tuesday**, 17 September 2019, from 2.00 p.m. to 3.00 p.m. in Conference Room C5, C building, seventh floor.

Light, the Way Forward: Advanced Light Sources for Peace and Development

Light sources are among the most important radiation facilities available for interdisciplinary research and innovation. This event will demonstrate their broad utility and how they may foster cooperation between Member States, as well as contributing to reversing brain drain and boosting technological capacity in developing countries. Speakers will illustrate these themes, accompanied by a short film. This event is organized by Jordan.

This event will be held on **Tuesday**, 17 September 2019, from 2.00 p.m. to 3.30 p.m. in Conference Room M5, M building, ground floor.

200 MW(th) Multipurpose Integrated Nuclear Heating Reactor

The event will feature the latest innovation in advanced small modular reactors in China. The Shanghai Nuclear Engineering Research and Design Institute will showcase the 200 MW(th) nuclear heating reactor called LandStar-1, a multipurpose integrated pressurized water reactor used for central heating of residence buildings and industrial steam supply. This event is organized by China.

This event will be held on **Tuesday**, 17 September 2019, from 2.00 p.m. to 4.30 p.m. in Conference Room C3, C building, seventh floor.

Preparing Future Generations to Support Nuclear Power Using Operating Experience and Lessons Learned from Operating Nuclear Power Programmes: The Veterans' Perspective

This event will discuss how lessons learned from the older fleets of nuclear plants can be used to ensure future generations of workers are better

prepared to deal with technical issues associated with plant life management, demographic resource challenges as well as with the public understanding of nuclear power. This event is organized by the Russian Federation.

This event will be held on **Tuesday**, 17 September 2019, from 3.30 p.m. to 5.00 p.m. in Conference Room M7, M building, ground floor.

Uzbekistan — Nuclear Newcomer

This side event will present Uzbekistan's newly established Agency for the Development of Nuclear Energy (UzAtom) and the plans for construction of its first nuclear power plant. This side event is organized by Uzbekistan.

This event will be held on **Tuesday**, 17 September from 4.00 p.m. to 5.00 p.m. in Conference Room M4, M building, ground floor.

Laser-Driven Neutron Sources for Nuclear Applications

This event will introduce new technology to apply high-power laser systems as a driver for compact neutron sources for non-destructive evaluation, radiography and active interrogation of sensitive nuclear material. This event is organized by Germany.

This event will be held on **Tuesday**, 17 September 2019, from 4.00 p.m. to 5.30 p.m. in Conference Room C4, C building, seventh floor.

The Brazilian-Argentine Agency for Accounting and Control of Nuclear Materials (ABACC) Experience: Non-Proliferation and Safeguards through Regional Cooperation

On the 25th anniversary of the entry into force of the quadripartite agreement between Argentina, Brazil, the Brazilian-Argentine Agency for Accounting and Control of Nuclear Materials (ABACC), and the IAEA for the application of safeguards, this side event will discuss ABACC and its cooperation with the IAEA in coordinating inspections, its relationship with Euratom, and future challenges. This event is organized by ABACC.

This event will be held on **Tuesday**, 17 September 2019, from 4.30 p.m. to 6.00 p.m. in Conference Room M6, M building, ground floor.

Path to Global Deployment of Small Modular Reactors Based on Japan's High Temperature Gas Cooled Reactor Technology

The high temperature gas cooled reactor (HTGR) design, developed by Japan as a small modular reactor, is mature enough for near term deployment. This side event will focus on the HTGR deployment plan through international partnerships. It will also present the features of HTGR and discuss expectations of the international collaborators. This event is organized by Japan.

This event will be held on **Wednesday**, 18 September 2019, from 10.00 a.m. to 11.30 a.m. in Conference Room M7, M building, ground floor.

Convention on Supplementary Compensation for Nuclear Damage (CSC): Making Progress towards a Global Liability Regime

Contracting Parties to the CSC and legal experts will share information and updates concerning the accession to and ratification of the Convention and its contribution towards a global liability regime. Panellists will also discuss other developments in 2019, including the launch of the Group of Friends of the CSC in Vienna. This event is organized by Argentina on behalf of the Group of Friends of the CSC.

This event will be held on **Wednesday**, 18 September 2019, from 10.30 a.m. to 12.00 noon at ESPACE M01, M building, first floor.

US Leadership and Experience in the Development of Advanced Reactor Technologies

This event will discuss the latest technical and policy advancements on advanced reactor development in the United States of America, for the deployment of these technologies starting in the late 2020s to support clean energy, power generation and other industry applications. This event is organized by the United States of America.

This event will be held on **Wednesday**, 18 September 2019, from 11.00 a.m. to 12.30 p.m. in Conference Room C4, C building, seventh floor.

International Assistance for a Patient from the 1998 Lilo Radiological Accident

Following the radiological accident in Lilo, Georgia, the IAEA provided an assistance mission with the involvement of the Response and Assistance Network (RANET) in response to an official request from Georgia for medical support. This side event will explore the results of that mission with input from

Georgia, the assisting State France, and the IAEA. This event is organized by Georgia.

This event will be held on **Wednesday**, 18 September 2019, from 11.00 a.m. to 1.00 p.m. in Conference Room M5, M building, ground floor.

Global Elimination of Highly Enriched Uranium from Medical Isotope Production and Non-HEU Medical Isotope Production Technologies

This event will highlight global progress towards eliminating highly enriched uranium (HEU) from medical isotope production and to showcase non-HEU medical isotope production technologies. This event is organized by the United States of America.

This event will be held on **Wednesday**, 18 September 2019, from 12.00 noon to 1.00 p.m. in Conference Room M4, M building, ground floor.

IFNEC — an Enabler of Cooperation in Peaceful Uses of Nuclear Energy

The International Framework for Nuclear Energy Cooperation (IFNEC) will present its activities, focusing on its Global Ministerial Conference 'Bringing the world SMRs and Advanced Nuclear Technology' taking place in November 2019 in the United States of America. It will also present regional outreach activities such as participation in the Africa Nuclear Business Platform in October 2019 in Kenya. This side event is organized by the United States of America.

This event will be held on **Wednesday**, 18 September 2019, from 12.30 p.m. to 2.00 p.m. at ESPACE M01, M building, ground floor.

Denials and Delays of Shipment of Nuclear and other Radioactive Materials

This event will raise awareness of the ongoing issue of denials and delays of shipment of radioactive material. Discussions will focus on ways to implement the recommendations of IAEA General Conference resolution GC(61)/RES/8 and of the International Maritime Organization (FAL 42/16/1). The event intends to foster Member States' support for the development of an IAEA Code of Conduct on facilitation of transport. This event is organized by Brazil.

This event will be held on **Wednesday**, 18 September 2019, from 1.00 p.m. to 2.30 p.m. in Conference Room M6, M building, ground floor.

The FASTNET Project for Structured and Faster Responses to Nuclear Emergencies

This event will showcase the FASTNET (FAST Nuclear Emergency Tools) project, which is coordinated by the IRSN (France) and involves 20 partners from 18 countries. It has improved the tools needed for a rapid response to emergencies at most nuclear power plants. Combined with a reference database of accident scenarios and a common assessment methodology, these tools will enable emergency centres to better protect the surrounding population. The event is organized by France.

This event will be held on **Wednesday**, 18 September 2019, from 1.00 p.m. to 3.00 p.m. at ESPACE M02, M building, second floor.

Achieving Sustainable Development Goals in Pakistan through the use of Nuclear Technology

Over the past six decades, Pakistan has increasingly applied nuclear technology to achieve sustainable development for its people. At this side event, Pakistan will showcase its experience in achieving sustainable development goals. This event is organized by Pakistan.

This event will be held on **Wednesday**, 18 September 2019, from 2.30 p.m. to 3.30 p.m. in Conference Room C3, C building, seventh floor.

The Ibero-American Forum of Radiological and Nuclear Regulatory Agencies (FORO): Enhancing Nuclear and Radiation Safety through Regional and International Cooperation

This side event will provide a forum for IAEA Member States to discuss measures to strengthen regulatory bodies through regional cooperation. It will present the experiences of the Ibero-American Forum of Radiological and Nuclear Regulatory Agencies and other regional initiatives, and identify areas for further collaboration among regional associations and networks. This side event is organized by Colombia.

This event will be held on **Wednesday**, 18 September 2019, from 3.00 p.m. to 5.00 p.m. in Conference Room M4, M building, ground floor.

Spotlight on Emerging Nuclear Countries

World Nuclear Spotlight, organized by the global nuclear industry, is a unique approach to providing support to countries that have plans for new nuclear energy capacity. Spotlight brings together key national and international

stakeholders. This event aims to hear from government and industry experts about lessons learned in managing risks during nuclear projects. The event is organized by Brazil.

This event will be held on **Wednesday**, 18 September 2019, from 3.00 p.m. to 5.00 p.m. in Conference Room M5, M building, ground floor.

Stronger Nuclear Security through Effective Cooperation: EU Support through Centres of Excellence in East and Central Africa

The European Commission's support to nuclear security Centres of Excellence in Eastern and Central Africa has resulted in stronger national and regional nuclear security. With EU support, including targeted activities and ample resources, the Centres use a holistic approach to identify nuclear security challenges and to develop and implement solutions. The event features briefings and a discussion. This event is organized by the European Commission.

This event will be held on **Wednesday**, 18 September 2019, from 3.00 p.m. to 5.00 p.m. in Conference Room M6, M building, ground floor.

Nuclear Security Culture: International Perspectives

This side event showcases the United Kingdom's Nuclear Security Culture Programme, delivered by King's College London. The programme works to raise awareness of nuclear security in key organizations; support implementation of best practice approaches on nuclear security culture; and provide examples of how security culture helps sustain the peaceful uses of nuclear energy. This event is organized by the United Kingdom.

This event will be held on **Wednesday**, 18 September 2019, from 3.00 p.m. to 5.00 p.m. at ESPACE M01, M building, first floor.

Strengthening Public Trust: What it Takes to be a Trusted Regulator

Members of the public expect to be involved in nuclear regulatory and licensing processes. Public participation can build trust in those processes and regulators. This event will consider lessons learned from regulators who are taking steps to build and maintain public trust while regulating for safety. This event is organized by Canada.

This event will be held on **Wednesday**, 18 September 2019, from 3.30 p.m. to 5.00 p.m. at ESPACE M02, M building, second floor.

South–South Cooperation: Promoting Capacity Building in Nuclear Science and Technology

At this side event, developing countries will showcase their efforts, with support from the IAEA, to strengthen South–South cooperation through sharing of experience and lessons learned, and to accelerate capacity building through active engagement. The side event will also address outreach activities to engage young generations. This event is organized by Indonesia.

This event will be held on **Thursday**, 19 September 2019, from 10.00 a.m. to 12.00 noon at ESPACE M01, M building, first floor.

Hosting a Nuclear Facility: Perspectives from Local Communities

This event will allow representatives of local communities hosting nuclear power plants or other nuclear fuel cycle facilities to share their views on the benefits and challenges of living near a nuclear installation. The event is co-organized by Canada, China, France, India, Japan, the Republic of Korea, the Russian Federation, the United Kingdom and the United States of America.

This event will be held on **Thursday**, 19 September 2019, from 10.30 a.m. to 12.30 p.m. in Conference Room M5, M building, ground floor.

Robotics and Automation Systems for Non-Destructive Examination (NDE) in Nuclear Power Plants: Integrity of System Structure, Component.

Integrity of components is one of the most critical challenges for the stable and reliable operation of nuclear power plants. This side event will present advanced non-destructive examination and in-service inspection technology for nuclear power plants. It will provide a platform for the exchange of experience among participants in the use of these tools. This event is organized by Croatia.

This event will be held on **Thursday**, 19 September 2019 from 10.30 a.m. to 12.30 p.m. in Conference Room C4, C building, seventh floor.

Mainstreaming a Gender Perspective in the Nuclear Field: A Reflection on Concrete Future Steps

At this event, a panel of experts will share information about implementing gender mainstreaming in organizations, and propose ideas during a round-table discussion on gender perspective in the nuclear workplace, including sharing experiences and reflecting on future steps. This event is organized by Argentina.

This event will be held on **Thursday**, 19 September 2019, from 12.30 p.m. to 2.30 p.m. in Conference Room M6, M building, ground floor.

The Journey of Success of China in Geological Disposal of High Level Radioactive Waste

This side event will showcase the journey to success of the China–IAEA partnership in developing institutional infrastructure, human capacity and technical capabilities for geological disposal of high level radioactive waste. This event is organized by China.

This event will be held on **Thursday**, 19 September 2019, from 2.00 p.m. to 4.30 p.m. in Conference Room M7, M building, ground floor.

Forum of Nuclear Regulatory Bodies in Africa (FNRBA): Annual Plenary Meeting

The Forum of Nuclear Regulatory Bodies in Africa plenary meeting will discuss achievements from the past year and the Action Plan for the coming year. The meeting will also address other topics related to the governance of the Forum and elect new office holders. This event is organized by Cameroon.

This event will be held on **Thursday**, 19 September 2019, from 2.30 p.m. to 4.00 p.m. in Conference Room M6, M building, ground floor.

ORGANIZED VISITS

To register for organized visits, interested delegates should follow the instructions provided for each visit. Kindly note that participation is not open to media representatives.

For reasons of security and logistics, visitors will be required to use the transport provided by the Agency, when applicable. The number of places available is limited.

Tours of the IAEA Radiation Safety Technical Services Laboratory

This tour will showcase the IAEA Radiation Safety Technical Services Laboratory, which provides monitoring services to 3000 occupationally exposed workers annually for external and internal radiation exposure. The services are critical to Agency activities globally. Support services also include training, consultation and loan of survey equipment.

Tours will be offered on **Tuesday, 17, Wednesday, 18** and on **Thursday, 19** September 2019.

The planned duration of each visit is one hour, **from 10.00 a.m. to 11.00 a.m.**

Prior registration for the tour is encouraged at the Nuclear Safety and Security exhibition booth outside plenary hall on M01, M building, first floor.

The assembly point is the Information Desk at the entrance to M building, from where participants will be picked up on the respective day **at 9.50 a.m.**

Tours of the Incident and Emergency Centre: Gain Insights into IAEA Emergency Preparedness and Response

The IAEA Incident and Emergency Centre is the global focal point of emergency preparedness and response for nuclear or radiological emergencies. This tour provides an insight into its operations and capabilities.

Tours will be offered on **Tuesday, 17, Wednesday, 18** and **Thursday, 19** September 2019. The planned duration of each visit is 1 hour, **from 12.00 noon to 1.00 p.m.**

To register, interested delegates should please send an email, in advance, to Ms Sinead Harvey (s.harvey@iaea.org) stating first and family name, affiliation, delegation and telephone number.

The assembly point is the Information Desk at the entrance to M building, from where participants will be picked up on the respective day **at 11.50 a.m.**

Visit of the IAEA Isotope Hydrology Laboratory in Vienna

Delegates will have the opportunity to visit the IAEA Isotope Hydrology Laboratory that provides analytical support to the Agency's water resources programme, training for scientists from Member States and quality assurance services to isotope hydrology laboratories worldwide. It also develops hydrology laboratory instruments for transfer to Member States.

A visit will be offered on **Tuesday**, 17 September 2019 **from 2.00 p.m. to 3.00 p.m.**

To register, interested delegates should please send an email, in advance, to Mr Takuya Matsumoto (t.matsumoto@iaea.org) stating first and family name, affiliation, delegation and telephone number.

The assembly point is the Information Desk at the entrance to M building, from where participants will be picked up on **Tuesday**, 17 September **at 1.50 p.m.**

Tour of the IAEA's Safeguards Analytical Laboratories in Seibersdorf, Austria

Visitors to the IAEA Safeguards Laboratories, located in Seibersdorf, Austria, will see how the IAEA analyses nuclear material and environmental samples to help verify that States are honouring their international nuclear non-proliferation commitments.

The tour will be offered on **Wednesday**, 18 September 2019. The planned duration of the tour is 4 hours, **from 9.00 a.m. to 1.00 p.m.**

Prior registration for the tour is required by **12.00 noon** on **Tuesday**, 17 September 2019 at the Safeguards exhibition booth outside the plenary hall on M01, M building, first floor.

Buses will take visitors from the VIC to Seibersdorf, and return 4 hours later. Due to space constraints, a maximum of 60 visitors can be accommodated.

For transportation to Seibersdorf, participants are asked to assemble at the Information Desk at the entrance of M building on **Wednesday**, 18 September **at 8.50 a.m.**

Tour of the IAEA's Nuclear Applications Laboratories in Seibersdorf, Austria

An opportunity to visit the IAEA's Nuclear Applications (NA) laboratories, located in Seibersdorf, Austria, will be offered to delegates. Visitors will receive

information about how the eight laboratories provide support to and work with Member States in the peaceful application of nuclear and nuclear-related techniques for development and environmental protection in the diverse areas of food and agriculture, medical dosimetry, terrestrial environment and nuclear instrumentation.

The tour will be offered on **Thursday**, 19 September 2019. The planned duration of the tour is 4 hours, **from 9.00 a.m. to 1.00 p.m.**

To register, please send an email by not later than **12.00 noon** on **Tuesday**, 17 September 2019, to Ms Nanette Azucena (o.azucena@iaea.org) stating first and family name, affiliation, delegation and telephone number.

Buses will take visitors from the VIC to Seibersdorf, and return 4 hours later. Due to space constraints, a maximum of 60 visitors can be accommodated.

The assembly point for bus transportation is the Information Desk at the entrance to M building, from where participants will be picked up and guided to the buses on **Thursday**, 19 September **at 8.50 a.m.**

Safeguards Equipment Insight: Non-Destructive Assay, Surveillance, Unattended Monitoring, Seals and Containment

During this tour of the Safeguards equipment laboratories, visitors can learn more about the verification equipment that supports the IAEA's verification mission, including non-destructive assay equipment; surveillance and unattended monitoring capabilities; and the seals and containment applied to nuclear material.

The tour will be offered on **Tuesday**, 17 September 2019 **from 1.00 p.m. to 2.00 p.m.**

Prior registration for the tour is required at the Safeguards exhibition booth outside the plenary hall on M01, M building, first floor.

The tour will start at the Information Desk at the entrance to M building on **Tuesday**, 17 September **at 12.50 p.m.**

Safeguards Equipment Insight: Asset Management and Monitoring Equipment for Radiation

During this tour of the Safeguards equipment laboratories, visitors can learn about the safeguards equipment used by IAEA safeguards inspectors; from the preparation of equipment to be taken into the field, via the shipment of the equipment, to its return to IAEA Headquarters.

The tour will be offered on **Wednesday**, 18 September 2019 **from 1.30 p.m. to 2.30 p.m.**

Prior registration for the tour is required at the Safeguards exhibition booth outside the plenary hall on M01, M building, first floor.

The tour will start at the Information Desk at the entrance to M building on **Wednesday**, 18 September **at 1.20 p.m.**

Safeguards Equipment Insight: New Spent Fuel Verification Activities for Safeguards

Verifying spent nuclear fuel can pose a challenge. This tour of the Safeguards equipment laboratories will present spent fuel verification technology, including the latest developments in supporting the IAEA's verification effort.

The tour will be offered on **Thursday**, 19 September 2019 **from 1.00 p.m. to 2.00 p.m.**

Prior registration for the tour is required at the Safeguards exhibition booth outside the plenary hall on M01, M building, first floor.

The tour will start at the Information Desk at the entrance to M building on **Thursday**, 19 September **at 12.50 p.m.**

Safeguards Equipment Insight: Passive Gamma Emission Tomography for the Verification of Spent Nuclear Fuel

Passive gamma emission tomography (PGET), the newly-developed capability for the underwater verification of spent nuclear fuel, takes tomographic images to detect missing fuel pins and verify pins in closed containers. This in-laboratory demonstration will show the operation of PGET and present data analysis functions.

The demonstration will be offered on **Friday**, 20 September 2019 **from 10.00 a.m. to 11.00 a.m.**

Prior registration for the demonstration is required at the Safeguards exhibition booth outside the plenary hall on M01, M building, first floor.

Participants are asked to assemble at the Information Desk at the entrance to M building on **Friday**, 20 September **at 9.50 a.m.**

SPECIAL EVENT

Solemn Mass

Holy See

A solemn Mass will be celebrated on the occasion of the 63rd General Conference. The Mass will take place on Sunday, 15 September at 4.00 p.m. in the Karlskirche, Kreuzherrengasse 1, 1040 Vienna.

LIST OF EXHIBITIONS

EXHIBITIONS BY MEMBER STATES

Argentina	Argentina: Driving the Evolution of Nuclear Technology
Armenia	Armenia's System of Industrial Anti-Seismic Protection and Maintenance Simulator for Nuclear Power Plant Equipment
Bangladesh	Nuclear Power Programme in Bangladesh
Belarus	Development of Nuclear Power Programme in Belarus
Belgium	Nuclear Technology for Health and Prosperity
Brazil	Brazil: Nuclear Energy for the Future
Canada	Canadian Nuclear Industry Showcase
China	"WE CARE" — Nuclear Technology for a Better Future
Finland and the European Commission	EU–UN: 40 years together in Vienna — Finnish Radiation and Nuclear Safety Expertise and EU Support to Nuclear Safety
France	French Nuclear in the Service of Climate and Health
Germany	Germany's Helmholtz Association: Nuclear Safety Research
Indonesia	Capacity Building for Sustainable Human Resource Management
Italy	Nuclear Technology Applications in Italy: From the Past to the Future
Japan	Life, Safety and Prosperity
Jordan	The Jordan Research and Training Reactor, and SESAME: The First Synchrotron Light Source in the Middle East — Hub for Science and Technology
Korea, Republic of	The Milestones of Korean Nuclear Reactors
Netherlands	Nuclear Netherlands
Pakistan	Atoms for Sustainable Development in Pakistan
Philippines	The Peaceful Applications of the Atom in the Philippines

Russian Federation	The Russian Federation: The State Atomic Energy Corporation "Rosatom"
Saudi Arabia	Nuclear and Radiological Regulatory Commission (NRRC)
South Africa	Necsa Enhancing Lives through its Nuclear Technology Excellence and Innovation
United Arab Emirates	The UAE Nuclear Energy Programme — Pioneering the Development of Peaceful Civilian Nuclear Energy
United Kingdom of Great Britain and Northern Ireland	UK Capabilities in the Nuclear Energy Sector
United States of America	Powered by American Innovation

EXHIBITIONS BY ORGANIZATIONS

	AFRA	Celebrating 30 years of AFRA
Association of Southeast Nations Network of Regulatory Bodies on Atomic Energy (ASEANTOM)		ASEANTOM: ASEAN Network of Regulatory Bodies on Atomic Energy
The European Technical Safety Organisations Network (ETSON) and the European Nuclear Safety Training and Tutoring Institute (ENSTTI)		The European Technical Safety Organisations Network (ETSON) and the European Nuclear Safety Training and Tutoring Institute (ENSTTI)
FORO – the Ibero-American Forum of Radiological and Nuclear Regulatory Agencies		FORO — the Ibero-American Forum of Radiological and Nuclear Regulatory Agencies
International Youth Nuclear Congress (IYNC)		The Role of the Young Generation in Nuclear in the Peaceful Use of Nuclear Energy
UN Scientific Committee on the Effects of Atomic Radiation (UNSCEAR)		United Nations Scientific Committee on the Effects of Atomic Radiation (UNSCEAR)
Women in Nuclear (WiN)		Women in Nuclear
World Nuclear Association (WNA)		World Nuclear Association

EXHIBITIONS BY THE IAEA SECRETARIAT

OLA	Office of Legal Affairs: Developing and Enhancing the Legal Framework for IAEA Activities
-----	---

MTCD	IAEA Publications
------	-------------------

MTHR	IAEA Recruitment
