ATTACHMENT

TEXT OF A LETTER TO "DIE PRESSE" FROM THE
PERMANENT MISSION OF NIGERIA

"My attention has been drawn to a news item which appeared in you issue of Thursday, 13 August 1987 entitled 'Nigeria fordert eigene, schwarze Atombombe',^{1/} and attributed to the Foreign Minister of the Federal Republic of Nigeria, Professor Bolaji Akinyemi.

"I have been directed by my Foreign Minister to state that your report is a gross distortion of a lecture which he recently gave. He wishes to re-affirm Nigeria's strong commitment to the non-proliferation regime. As is well-known, Nigeria is one of the earliest countries to sign and ratify the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and she has been active in different international fora in seeking to enhance and consolidate the non-proliferation regime to which she is and will continue to be deeply committed. This is the policy of Nigeria and there is no departure therefrom. I will also add that Nigeria is an active member of the International Atomic Energy Agency and has consistently supported the objectives of the organization including its safeguards functions."
