PERMANENT MISSION
OF THE RUSSIAN FEDERATION TO THE
INTERNATIONAL ORGANIZATIONS
IN VIENNA

Erzherzog-Karl-Straße 182
A-1220 Wien

Tel. (043-1) 282 53 91, 282 53 93
Fax (043-1) 280 56 87

№ 3323-11

The Permanent Mission of the Russian Federation to the International Organizations in Vienna presents its compliments to the Secretariat of the International Atomic Energy Agency and has the honour to transmit the following information received from the Ministry of Defense of the Russian Federation, including photo materials, about the situation at the Zaporozhskaya NPP (ZNPP) in light of the continuing attacks of armed forces of Ukraine (AFU).

At 15:20 on September 5, 2022, the AFU carried out artillery shelling (3 shells) of the territory of the ZNPP from the side of the settlement Marganets. The first shell hit the roof of special building No.1, which contains 168 assemblies with American nuclear fuel from “Westinghouse”, as well as a solid radioactive waste storage facility. The second shell hit the transition area between the special building No.1 and power unit No.2. The third shell hit the area near power unit No.2 where tanks for storing distilled water are located (distilled water is used for diluting boric acid and adjusting the power of the reactor).

There are no victims. The radiation situation remains normal.

The Permanent Mission of the Russian Federation requests the Secretariat to circulate this information among all IAEA Member States as soon as possible.

THE SECRETARIAT OF THE
INTERNATIONAL ATOMIC ENERGY AGENCY
Vienna

The Permanent Mission of the Russian Federation avails itself of this opportunity to renew to the IAEA Secretariat the assurances of its highest consideration.

Attachment: Scheme of AFU strikes against ZNPP on September 5 and photos of consequences of these strikes, 2022, 10 pp.
